

Welcome:

Congratulations on your purchase of ZEN mobile device.

ZEN, your best mobile communication partner. Your mobile provides many functions that are practical for daily use, such as calendar, clock, an alarm clock, and messaging functions.

PS: Where any discrepancy arises between the practical function and the manual book, the index and practical function shall prevail. The Company reserves the right of revising the manual book without notice.

6. Warranty Card.....	21

1. For your safety

Read these simple guidelines. Not following them may be dangerous or illegal.

SWITCH OFF YOUR MOBILE IN HOSPITALS

Follow any restrictions. Switch off the device near medical equipment. Do not use the device where blasting is in progress. Please keep the cell phone away from children, as they could mistake it for a toy, and hurt themselves with it.

Do not try to modify the phone except by the professional.

Warning!

Only use the authorized spare parts, otherwise it may damage the phone and the warranty will not be valid and it may be dangerous.

SWITCH OFF WHEN REFUELING

Do not use the phone at a refueling point. Do not use near fuels or chemicals.

SIM CARD AND T-FLASH CARD ARE PORTABLE

Pay attention to these small things to avoid children eating them.

Notice: The T-Flash Card can be used as a Memory Disk, the USB cable is necessary.

BATTERY

Please do not destroy or damage the battery, it can be dangerous and can cause fire.

Please do not throw battery in fire, it will be dangerous

When battery cannot be used, put it in the special container.

Do not open the Battery.

If the battery or the charger is broken or old, please stop using them.

USE QUALITY EQUIPMENT

Using unauthorized equipment can be dangerous.

ROAD SAFETY COMES FIRST

Give full attention while driving; Pull off the road or park before using your phone.

INTERFERENCE

All wireless devices can cause interference, which could affect performance.

SWITCH OFF IN AIRCRAFT

Wireless devices can cause interference in aircraft. It is not only dangerous but also illegal to use mobile phone in an aircraft.

Warning: Improper usage will make warranty expiration.

2. Getting Started

Battery Install Notice

Before you install or change battery, please ensure you turn off the phone.

Install or change SIM card Notice

1. Before you change SIM card, please make sure your phone is switched off and remove the battery.
2. Insert the SIM card and make the golden contact area face down and the nick face out.

Charge the battery

1. Before charging the battery, please make sure that the battery is installed properly in the phone.
2. Connect the charger lead to the phone socket, and then connect the charger to the AC socket.
3. If the phone is on when it's charging, charging indicator is displayed on the screen. If the phone is off when it's charging, charging indicator is displayed on the screen. When the battery is fully charged, the charging indicator on the screen is full and stops twinkling. While using the phone for the first time, please completely discharge and then completely charge the battery then use the phone. Repeat the process for three times to achieve the full performance of the battery.
4. If unused for a longer period or some other reasons may cause low battery pressure, so at the beginning of charging the screen remains black and it may take a while before the charging indicator appears.

Warning: When charging, in order to avoid serious damage to phone circuitry, do not remove the battery.

3. Calls

3.1 Key Explanation

Lock Keyboard

In standby mode, if you need to lock the keypad, first press the Menu key, then press the * key.

Unlock Keypad: Press <Unlock> then press the ‘*’ key.

* Key # Key

Functions vary in different situations or function menus:

- In inputting status, “*” for symbols.
- In inputting status, “#” to switch inputting methods.
- In standby mode, hold “#” to switch the phone in silent mode.
- In standby and dial mode, press and hold “*”, you can input +, P and W.
- In standby mode, input “+” for an international call; in dial status, input “P” for calling number with extension phone.

3.2 Make a Call

Making a call by dialing numbers:

1. In standby mode, enter the phone number. If you want to change the numbers, press left and right direction key to move the cursor and press <Clear> to delete a number. Press and hold <Clear> to delete all characters.
2. Press the call key to call the number. Press <Option> to enter the options of IP dial, save, send message, send multimedia message, etc.

Making a call using the Phonebook:
