

1.9 GHZ CDMA PCS | 800 MHZ CDMA/AMPS (TRI-MODE)

# PM325

- Compact, Stylish Sliding Keypad
- Integrated CMOS Camera
- Bluetooth® Enabled
- Web Browser with Image Support
- Voice Memo Recorder

*Slide. Click. Send the pic...*

This slider phone is a hot-shot camera and hands-free dream. Its keypad opens to an eye-catching 65,536 color LCD to frame vivid snapshots with up to 8x digital zoom. It sports the latest in web, voice and sound technology. And Bluetooth makes it all tangle-free.

With a quick flick of your thumb, you can turn the stylish PM325 from a compact pocket phone into a big-screen camera phone. Just slide the keypad down an inch and start capturing the world around you (or yourself) in vivid detail. Then e-mail the snapshots with a personal voice or text message to your favorite folks. Or assign them to a photo Caller-ID to see who's dialing in. There are dozens of other features built in too. Like an image-supporting web browser. E-mail capability. And voice memo and voice dialing. It's hassle-free. And now it's tangle-free too, thanks to short-range Bluetooth wireless technology.

*pixel perfect power*

*Digital Camera*

*Bluetooth Enabled*

*Bluetooth is a radio technology that delivers wireless transmission of both voice and data between Bluetooth enabled devices that are in close proximity.*

*and no wires*

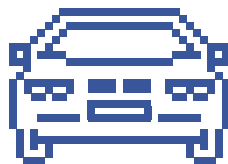

⋮ .....

*Communicate up to*

Go hands-free and tangle-free at the same time with Bluetooth wireless technology. The PM325 can interact with other Bluetooth devices like this headset\* without any wires to get in the way.†

\* Headset sold separately

Tie-in wirelessly to Bluetooth ready car audio systems and keep your hands and ears free.†

Use dial-up networking to create an invisible Internet link from your phone to a Bluetooth capable laptop.†

Use your phone as a wire-free modem to access e-mail and web info through a Bluetooth enabled handheld.†

30 feet wirelessly

† In order to connect the PM325 to another device via Bluetooth wireless technology, you must verify that the device also supports the Bluetooth headset, hands-free and/or dial-up networking profile(s). Typically, profile availability is found in the user manual. The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by LG InfoComm is under license.
