**Note:** User's Manual is Just to guide the user about the functionality of the phone. This does not seem any certificate of technology. Some functions may vary due to modifications and up gradations of software or due to print mistake.

## SAFETY PRECAUTIONS

Before using your phone, please read the following important information to eliminate or reduce any possibility of causing damage and personal injury.

	Do not use wireless phones while driving.
	Switch off wireless devices in aircraft. The signal may cause interference. Using them on aircraft is illegal.
	Do not use mobile phones where blasting is in progress. Follow regulations and rules strictly.
	Do not use mobile phones at a refueling point. Don't use near fuel or chemicals
	Follow regulations or rules in hospital and health care facilities. Switch phone off near medical equipment.
	All wireless devices may get interference that could affect performance.
	Only qualified service personnel can install or repair this device.
	Use only approved accessories and batteries.
	Use only in normal position. Do not expose your phone to extreme high temperatures above +60°C (+140°F) . Do not use anything static to clean your phone.
	Ensure the phone is turned on and in service. Enter the emergency number, then press Pick Up key. Give your location. Do not end the call until told to do so.

Improper use will invalidate the warranty! These safety instructions also apply to original accessories.

## **1 Preface**

Thank you very much for your choice of this product designed by our company!

The wireless device described in this guide is approved for use on the GSM network. GSM network is a global cellular communication system of international standards.

Allow you to receive an international telephone call used as in your homeland.

However, before using these advanced network functions, you must firstly apply for these required services.

In order to better use your device, we suggest that you carefully read this guide to know all the functions well.

Note: Due to the cellular network settings and the services provided, some functions may be unavailable. For more information, please contact your service provider.

## **2 Basic Knowledge**

### **2.1 Introduction**

Thank you for purchasing the digital color screen mobile phone. By reading these guidelines before using your mobile phone you will have an overall knowledge of this mobile phone and understand its simple but outstanding functions.

The mobile phone is particularly designed for GSM/GPRS/CDMA networks environment. In addition to the basic function of communication, the mobile phone also provide you with multiple applied functions, which include name card style phone book, clock/ alarm, agenda, calculator, games, audio player, sound recorder and so on, to make your work and leisure activities more convenient. Besides, the mobile phone has unique interface and perfect function design to meet your different needs.

The mobile phone reaches the requirement of GSM/GPRS/CDMA standard and has passed the qualification of authoritative organizations worldwide.

### **2.2 Safety information**

If your mobile phone is lost or stolen, inform immediately the telecom branch or its outlet to forbid the use of your mobile phone and SIM/UID card, which will help your to avoid the economic loss caused by other's misuse of your mobile phone.

When you get contact with telecom branch or its outlet, they need to know the IMEI number of your mobile phone, which is marked on the tab on the back of your mobile phone (you can find it with battery taken out). Keep the number for future use.

Please take precautionary measure to avoid abuse of your mobile phone. Such as:

- Set the PIN number of the SIM card, and modify it if others know.
- When you leave your car, please do not put the mobile phone in a place easy to be seen. Better take it with your or put it in trunk.
- Set call restriction.

### **2.3 Safety and health precautions**

Read the guidelines before using your mobile phone. Failure to comply with them may be dangerous.

#### **2.3.1 General guideline**

Only use the approved battery and charger. Other products may lead to leaking, over heat, explosion, and fire.

Do not drop, knock, or shake the mobile phone. Rough handling may cause damage to the mobile phone or fire.

Do not place mobile phone, battery, or charger in the microwave oven or high pressure equipment. Doing so may break the internal circuit boards or cause a fire.

Do not use mobile phone in any area with a potentially explosive or flammable atmosphere. Using mobile phone in such area could cause a fire or explosion.

Do not keep mobile phone in hot, humid, or dusty areas, as its moving parts may be damaged.

Keep your mobile phone out of the reach of children. Do not let children play with mobile phone to avoid accident injury.

Do not leave mobile phone on unstable or uneven place. Such condition may result

in mobile phone falling.

#### 2.3.2 Mobile phone guideline

Switch off your mobile phone before boarding an aircraft or in hospital and any other facility where posted notices require you to do so. Mobile phone effects the electronic equipments and medication equipments. The mobile phone has auto switch on function, please check your alarm setting and make sure the mobile phone will not switch on automatically during the flight.

Certain electronic equipment may not be shielded against the RF signals from your wireless phone, such as hearing aid, pacemakers, other medical devices, fire sensor, auto gate, and others. For the satisfactory operation of the equipment and for the safety of personnel, please consult the manufacturer or local sales outlet to discuss alternatives.

Do not put hard pressure or hit on the screen. Rough handling can break the internal circuit board and the screen. The liquid from screen can dangerous human eyes. Please wash eyes with water immediately and go to hospital for further exam if the liquid is in eyes.

Do not modify or dismantle the mobile. Unauthorized modify or dismantle will result in damaging the mobile phone.

In some cases, mobile phone has side effect to the vehicle carried electronic equipments. Please do not use mobile phone under that circumstance. Failure to observe these instructions may lead to the denial of legal right.

Do not operate mobile phone with sharp object such as needle or ball pen. Sharp object will damage mobile phone or lead to malfunction.

Please do not use mobile phone which wire is damaged. Otherwise it will be dangerous to the user.

Please do not place mobile phone close to magnetic objects. Mobile phone can eliminate the information from disc, credit card and other cards.

Please keep small metal objects away from mobile phone's ear phone. The speaker has magnetism and attract small metal objects which has potential to damage itself and the one who use it,

Precipitation, humidity, and liquids will corrode electronic circuits. Keep the phone dry.

#### 2.3.3 Batteries guideline

Please keep mobile phone away from fire. Fire will damage the batteries and lead to explosion.

During changing batteries, hard pressure will cause the batteries leaking, over heated, explosion and caught fire.

Do not short-circuit the battery. Accidental short circuiting can occur when a metallic object (wire line, clip) or necklace connect two terminals. Short circuit may damage the battery.

Please do not weld the battery's terminal. Welding the battery will damage it.

The battery liquid is dangerous to human eyes. Please wash eyes with water immediately and go to hospital for further exam if the liquid is in eyes.

Do not modify or dismantle the battery. Unauthorized modify or dismantle will result in damaging the mobile battery.

Do not place batteries in or on the microwave oven or over heated places. That may damage the battery.

During charging, using or storing, if batteries temperature rise, color change, or deformed, please stop using and replace with new battery.

If the battery liquid is leaking or smelly, please remove it from fire to avoid explosion. Please keep battery away from humidity. Humidity will cause over heat, corrosion of the batteries.

Please do not leave the battery in hot places such as in a car in summer as you will reduce the capacity and life time of the battery.

Please do not leave the battery on charger for over 24 hours

#### 2.3.4 Charger & accessories

Please control the charger output voltage below 6.5V to avoid the voltage being too high to damage the phone.

Please charge with dedicated voltage. Using mismatched power will damage the mobile phone and charger.

Short circuit charger is forbidden. It will cause electric shock and damage the charger.

If the power line is damaged, please do not use the charger.

Please keep the charger free from dust all the time.

Keep charger away from liquid. Spilled liquid will dangerous the charger.

If charger has close contact with liquid, take off the charger from socket immediately to prevent further damage.

Do not modify or dismantle the charger. Unauthorized modify or dismantle will result in damaging the charger or personnel.

Please do not charge in humidity place. Humidity will cause over heat, corrosion of the batteries.

Do not touch the charger, power line or socket with wet hands. Doing so may give you an electric shock or damage the phone

Do not store heavy article on top of power line or dismantle it. Doing so will cause electric shock and fire.

Unplug the charger from socket before cleaning and maintenance.

Take the terminal to unplug the charger. Pulling the power line to unplug will damage the charger and cause electric shock or fire.

#### 2.3.5 Cleaning & maintenance

Mobile phone, batteries, and charger are not water proof. Please do not use them in humidity place such as shower room. Avoiding spilled by rain.

Clean mobile phone, batteries, and charger with soft fabric.

Do not use harsh chemicals, cleaning solvents or strong detergents to clean the mobile phone.

Please clean the socket regularly. Dirt will make the charger malfunction.

### 2.3.6 Others

#### Mobile phone:

Please always keep the phone at room temperature between 5°C~40°C and humidity between 35%~85%.

Please keep mobile phone away from telephone, TV, Radio and other office electronic appliances. Mobile phone will have side effect over such equipments.

#### Batteries:

Keep batteries away from direct sun shine. Keep batteries in cooling place with good ventilation

Lifespan of batteries are limited. The stand by time of the batteries will be shortening after frequent charging. When the operation time is noticeable shorter than normal, the batteries are worn out. It is time to buy a new battery.

Dispose of used batteries in accordance with location regulation. Always recycle. Do not dispose of batteries with normal daily waste.

#### Charger:

Please do not charge in the following places: under direct sun shine, temperatures below 5 degree or above 40 degree place, humidity or dusty place, vibrate place, place close to TV, radio or other appliances.

## 3 Before start

### 3.1 Parts names & explanation

#### 3.1.1 Key pad description

### 3.1.2 Keys instruction

Keys	Descriptions
 OK key & Navigation keys	OK key is used to confirm. At the standby mode, Up key: Standby Mode Down key: Camera
 Left soft key	Get into Main menu; select and confirm.
 Right soft key	Get into Phonebook; clear and cancel.
 Dial key	Press it to make or answer a call; At the standby mode, press it to access call logs;
 End key/ Power Key	Press it to end the current call; Return from any menu to standby mode; Long press it to power on/off the device
 Number keys	To input numbers, letters and special characters. In standby mode, long pressing 0 key to access FM.
 * key	It has different functions in different menus. In standby mode, press left soft key and * key to lock keypad; press left soft key and * key to unlock keypad.
 # key	It has different functions in different menus. In standby mode, press and hold this key to change user profiles.

Notice: In this user guide, when we say "Press", the "Press" means "click the key then release". "Press and hold" or "long press" means the key is kept pressed for two or more seconds.

### 3.1.3 Using T-Flash Card

You can use T-Flash card to enlarge your phone's memory capacity. The memory card slot is below the battery.

Insert T-Flash card

1. Slide up the fixture and put it up.
2. Put the card into the slot with the label side face up.
3. Put the fixture down and slide down to lock.

Remove T Flash card

1. Slide up the fixture and put it up.
2. Get the card out.

---

**Attention:**

Frequent erasing and writing will shorten a memory card's lifespan.

Do not remove a memory card from the phone or turn off the phone while data is being accessed or transferred. This could result in loss of data and/or damage to the card or phone.

Do not subject memory cards to strong shocks.

Do not touch memory card terminals with your fingers or metal objects. If dirty, wipe the card with a soft cloth.

Keep memory cards away from small children or pets.

Do not expose memory cards in a place subject to electro static discharge and/or electrical noise.

### 3.2 Batteries

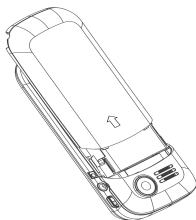

Batteries have been charged to 20% full. It can be used after unpack. The first three times batteries must be totally discharged before charging. It will help to prolong the batteries lifespan and working quality.

#### 3.2.1 Changing a battery

Please follow the steps to remove the battery:

Push the back cover backward.

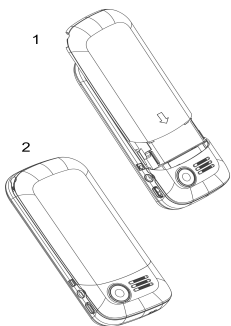

Lift the battery up to remove it.

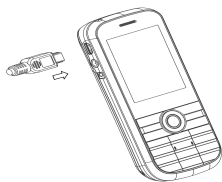

Please follow the steps to install a battery:

Place the top part of the battery to connect with grooves on the phone.

Push the battery downward till it clicks into place.

### 3.2.2 Charging a battery

Plug the charger into the socket.

Connect the adapter into the left of the phone.

Battery charging indicator sign will flash; if mobile phone is switch off during charging, the indicator sign will show on the screen. If the battery is too weak, the charging indicator sign will not show immediately after the charger plugs in.

When charging indicator sign shows the battery is full and stop flashing, charging is finished. If charge when switch off, the screen shows charging finished. The charging will last for a few hours. It is normal that the battery, mobile phone, and charger's temperature rise. Disconnect the mobile phone, charger, and socket after charging finish.

Attention:

Please always charge the battery at place temperature between  $5^{\circ}\text{C} \sim 40^{\circ}\text{C}$  . Use only the supplied charger. Unauthorized charger may damage the phone and violate regulation and guarantee.

When mobile phone switch off due to out of power or the indicator sign shows run low battery, charge the battery in time. Battery charging time depends on the remaining battery charge.

The stand by time and call time of this mobile phone is tested in an idealistic environment. In reality it is greatly affected by the signal strength o the cellular network, working environment and other factors

Do not remove the battery during charging. Please make sure the battery is in place before charging.

When charging is finished, unplug the adapter from the power outlet and from the phone.

If you do not unplug the adapter from the power outlet and from the phone, after 5 to 8 hours, the phone will start charging again due to the failure of battery power. We strongly suggest no to do so. It will shorten the lifespan of batteries.

### 3.3 Connecting network

#### 3.3.1 SIM/UM card

Please insert the SIM card before switch on the mobile phone. SIM card is the key to GSM network.

When you subscribe to a cellular network, the plug-in SIM card loaded with our subscription details such as your call history, call record, messages and others. SIM card can be removed and inserted into any GSM mobile phone ( new mobile phone can read SIM card simultaneously)

The plug-in SIM card and its contacts can be easily damaged by scratches or bending, please keep SIM card away from electric, magnetic objects. Once the SIM card is damaged, it will loss the accessibility to GSM network.

The UIM card is the key to CDMA network. Its functions are similar with SIM card.

Warning:

Switch off the mobile phone before remove the SIM/UIM card. It is forbidden to remove the SIM/UIM card when the power resource is connected.

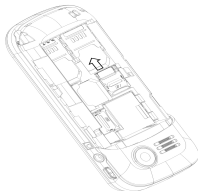

### 3.3.2 Insert and remove SIM/UIM card

Handle the SIM /UIM card with care.

Insert SIM card

Switch off mobile phone and remove external electrical source.

As shown on the picture, insert SIM card into the SIM card slot.

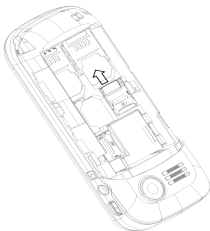

Remove SIM card

Switch off the mobile phone and remove electrical source.

As shown on the picture, slide the SIM card out from SIM card slot to remove it.

The way to use the UIM card is similar with the main card.

### 3.3.3 Power on or off

Power on: hold the End key to turn on the phone. If necessary, enter the PIN and phone password then press OK key.

Power off: hold the End key.

If the mobile phone is switched on without insert SIM/UM card, please insert SIM/UM card as instruction shown on screen. Mobile phone will run auto test once the SIM /UM card is inserted.

The following messages will show in order

Please key in the password—if the password is set to unlock the mobile phone

Please key in the PIN — if PIN is set for SIM/UM card

Searching for network—auto search for cellular network until connecting to network

### 3.3.4 Unlock the SIM/UM card

To eliminate unauthorized usage, SIM card can be locked by adding PIN1 number.

Once select this function, PIN1 must be inputted every time the mobile is switch on. If user does not set SIM card protection method, SIM card can not be protected from unauthorized usage.

Press End key to turn on the phone.

Input PIN number, touch clear to erase wrong input. Touch confirms to finish. For example, if PIN1 is 1234, then please input 1234.

If wrong input for 3 times, the SIM card will be locked by the network. It requests PUK1 number, if you do not know PUK1 number, please do not input yourself. Give the SIM card to cellular network service to deal. Detail information please refer Security setting

Attention:

The network supplier will set a standard PIN1 (between 4 to 8 digitals) for your SIM card. Please change it to your personal pass word. For detail please see Security setting. The operations with UIM card are similar with SIM card.

### 3.3.5 Unlock the mobile phone

Please set pin number to protect your mobile phone from unauthorized usage. Once select this function, pin number must be inputted every time the mobile is switch on. If user does not set pin number protection method, the mobile phone can not be protected from unauthorized usage

Input mobile phone password, touch clear to erase wrong input. Touch confirm to finish. For example, if the password is 0000, then please input 0000

If you forget the mobile phone password please contact the local sales branch or service center to unlock the mobile phone. (Default mobile phone password is 0000)

### 3.3.6 Connecting to the network

After the SIM/UIM card is unlocked, the mobile phone searches for network service. Once connected, the cellular service provider will show on the top right corner of the screen. The mobile phone is at idle stage and can make or receive a call.

Attention: If ONLY EMERGENCY shows on the screen, it means you are not in the service area of the network only the EMERGENCY call can be connected.

## 4 Basic functions

### 4.1 Making a call

When cellular network service provider shows on the screen, you can receive or make a call through network. The received signal strength is shown on the up left corner of the screen.

The quality of network connection is affected by the environment. Moving within small scale can improve the network connection quality.

To make a call, enter the phone number, including the area code, and press the Send key to dial.

Tips: For international calls, add the + character that replaces the international access code, and enter the country code, area code (omit the leading 0, if necessary), and phone number. Press \* key continuously to input the + character. To make a call using the saved contacts, press Right Soft key in idle mode. Select the contact and press Send key to dial.

To make a call using the log, press Send key in idle mode to view its call log. Scroll to desired number or name, and press Send key to dial.

To adjust the volume of an active call, use the Volume keys.

### 4.2 Answering a call

To answer a call, press the Send key or select Options -> Answer.

To reject a call, press the End key.

If any key to answer is switched on, you can press any key to answer it (except End key, Right soft key and Side volume keys). If the ear phone is connected, you can answer a call through ear phone.

### 4.3 Emergency call

If you are in the area covered by network service, you would be able to make Emergency call. If the cellular network service does not cover that area, ONLY EMERGENCY shows on the screen. That means you are not in the service area of the network only the EMERGENCY call can be connected. If you are in area

covered by network service, the Emergency call can be made without inserting card.

#### 4.4 Options during a call

During the call, you can press Right soft key to switch on/off louder speaker. Press Left soft key to get into option menu. The option menu is similar with Function menu. It is only possible to get into option menu during a call. The functions such as on hold, forward or making a multiparty call need network support. Please contact your network service provider for details.

In option menu you can select among:

Hold single call: Put the call on hold or recover it.

End single call: End the call.

New call: Making a new call.

Phonebook: Get into the menu of Phonebook.

Messages: Get into the menu of Messaging.

Sound recorder: Record the conversation.

Mute: press Left soft key to turn on or off.

DTMF: Press Left soft key to switch on /off.

Call logs: Get into the menu of call logs.

Multiparty call

- Switch: Keep switching between different parties.
- Meeting: To have a conference phone call.
- Transferring: Transfer current call to other phone.
- End A Call: To end the current call.
- End All Calls: To end all active calls.
- Phonebook: Get into the menu of Phonebook.
- Messages: Get into the menu of Messaging.
- Sound recorder: Record the conversation.
- DTMF: Press Left soft key to switch on /off.

Attention: Some options are available under certain condition. Such as Switch only can be used when there are more than one call are connected at the same time.

## 5 Function Menu

Attention:

- Some menus only appear under circumstance.

### 5.1 Using the function Menu

In Idle mode, press Left soft key to get into main menu.

In all menus or sub menus, press Navigation keys to enter a selection, to scroll left, right, up, and down on the display. Press Left soft key or OK key to enter the selection. Press Right soft key to exit current menu. Press End key to idle mode.

## 5.2 Icons

Icons	Descriptions
	Show the SIM1's current network signal level.
	Show the SIM2's current network signal level.
	Show the power level of Battery.
	You have unread SMS of SIM1.
	You have unread MMS of SIM1.
	You have missed calls.
	Alarm is set on.
	The headset is plugged in.
	Show the current profile is General.
	Show the current profile is Meeting.
	Show the current profile is Indoor.
	Show the current profile is Outdoor.
	Show the current profile is Bluetooth.
	Bluetooth is powered on.

#### 5.4 Phonebook

You can save names, mobile phone number, fixed line number, work place phone number and other information by Phone book function. From Main Menu, select Phonebook to get into phonebook options. Press Right soft key in idle mode to Phonebook.

Select Add new contact and press OK key to add new contact.

Select one contact and press Options to the following options:

View: view the detail of the contacts.

Send text message: send a text message to the contact.

Send multimedia message: send a MMS to the contact.

Call: make a call to the contact.

Edit: edit the information of the contact.

Delete: delete the contact.

Copy: copy the contact to phone, SIM/UIM card, or file.

Send contact: set the contact as the receiver and send a MMS or via Bluetooth.

Add to Blacklist: add the contact to blacklist.

Mark several: select more than one contact and send SMS to them.

Caller groups: You can set the group name, the caller picture, caller ringtone and select the group member.

Phonebook settings

- Preferred storage: select the prioritized place to save, SIM card or phone.
- Speed dial: You can set at most eight commonly used numbers as speed dial numbers. Press Options to access the following options:

Status: turn on or off the function.

Set number: set the numeric keyboard 2-9 correspond to a number. Hold the key to dial the number in idle mode.

- My number: edit or send owner's name card.
- Extra numbers: set the extra numbers that saved in SIM card such as own number.
- Memory status: view the memory status of SIM/UIM card and phone's memory.
- Copy contacts: copy the contacts between SIM/UIM card and phone.
- Delete all contacts: delete all the contacts from SIM/UIM card or phone.

Import/Export Phone Book

- Export phone book: copy contacts in phonebook to storage location.
- From T-Card to phone: copy contacts in the T-card to phone.
- From T-Card to SIM: copy contacts in the T-card to SIM card.
- From T-Card to UIM: copy contacts in the T-card to UIM card.

Press Left soft key /OK key to turn on or off the feature.

#### 5.14.5 Calculator

Use this menu to perform basic arithmetic functions such as addition, subtraction, multiplication, and division.

1. Enter the first number.
2. Press one of the Navigation keys to access the math function you want.
3. Enter the second number.
4. Press Left soft key or OK key to view the result.
5. If necessary, repeat from step 2 to continue the calculation.

Attention: the calculator's precision is limited and may have deviation especially in dividing.

#### 5.14.6 Unit converter

Use this menu for unit conversions.

Select the ratio then input the local currency.

Touch OK to view the result.

#### 5.14.7 Currency Converter

Use this menu for currency conversions.

Input the rate and then touch OK .

Set the ratio then input the local currency.

Touch OK to view the result.

#### 5.14.8 Health

Use this menu for BMI calculation.

Select the gender then input the height and weight.

Touch OK to view the result.

#### 5.14.9 Ebook

Use this menu to read the E-Book file. The supported file formats are TXT and PDB.

You can copy the file to the Ebook folder to read.

#### 5.14.10 Torch

If the function is turned on, users can set the waiting time to turn off the torch.

#### 5.15 Shortcuts

Use this menu to set some usually functions. The phone can set 8 shortcuts at most.

Press Option to access the following options:

- Add: add a new shortcut. Select a function from the list and press Left soft key or OK key. Then set the order to display.
- Edit: replace the current shortcut by selected shortcut.
- Delete: delete the current shortcut.
- Delete All: delete all shortcuts.
- Enable/Disable: enable or disable the current shortcut. It is unavailable in the shortcut list while disable.
- Change Order: change the order of the current shortcut.

#### 6 Input Method

##### 6.1 General

It supports normal English input method, smart English input method, number input

method and symbols input method.

## 6.2 Keypad definition

General keypad definitions are as follow: (for detail input keypad definition please refer Input method instruction)

Left soft key: to confirm, Right soft key: to delete a letter

Scrolling key: to move the cursor up, down, left, right or to see last or next page to select the letter.

# key: press it to switch between different input methods.

\* key: to select symbols.

0-9 number keys: represents the letters on that key.

## 6.3 Input method instruction

### 6.3.1 Smart English input method

Definition of keypad in smart English input method:

Name of key	Letters or functions
2 Key	Abc
3 Key	Def
4 Key	Ghi
5 Key	Jkl
6 Key	Mno
7 Key	Pqrs
8 Key	Tuv
9 Key	Wxyz
0 Key	Space
*Key	Press * to find symbol input page
#Key	Switch between input methods
Up	Move cursor up
Down	Move cursor down
Left	Move cursor left
Right	Move cursor right
Left soft key	Select
Right soft key	Clear
END key	Return to idle mode

Smart English input method's operation:

7 Every key pressed has input function to its corresponding letter, and all letters have been pressed will be auto shuffle to find the best combination. Repeat key in until the word or symbol you are looking for appears.

8 Use # key to switch between input methods.
