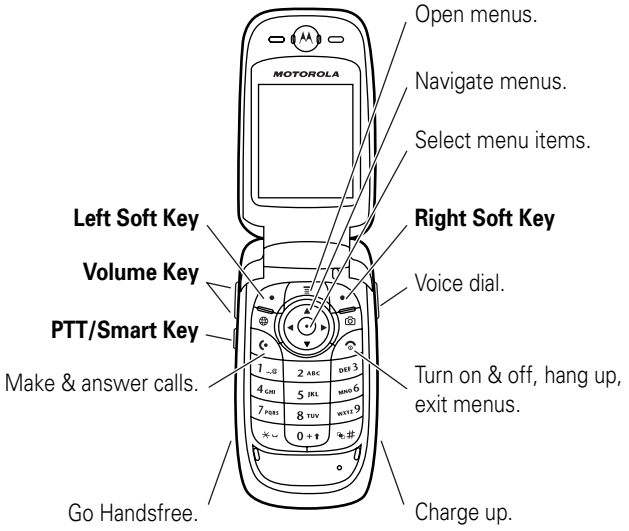
HELLOMOTO

Introducing your new Motorola V360 GSM wireless phone. Here's a quick anatomy lesson.



For Push to Talk (PTT) details, see page 57.

CFJN1732B.book Page 2 Tuesday, December 6, 2005 6:29 PM

www.motorola.com

Certain mobile phone features are dependent on the capabilities and settings of your service provider's network. Additionally, certain features may not be activated by your service provider, and/or the provider's network settings may limit the feature's functionality. Always contact your service provider about feature availability and functionality. All features, functionality, and other product specifications, as well as the information contained in this user's guide are based upon the latest available information and are believed to be accurate at the time of printing. Motorola reserves the right to change or modify any information or specifications without notice or obligation.

MOTOROLA and the Stylised M Logo are registered in the US Patent & Trademark Office. The Bluetooth trademarks are owned by their proprietor and used by Motorola, Inc. under licence. Java and all other Java-based marks are trademarks or registered trademarks of Sun Microsystems, Inc. in the U.S. and other countries. All other product or service names are the property of their respective owners.

© Motorola, Inc. 2005.

The information contained in Motorola's user's guides is believed to be correct at the time of printing. Motorola reserves the right to change or modify any information or specifications without notice. The contents of Motorola's user's guides are provided "as is." Except as required by applicable law, no warranties of any kind, either express or implied, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose, are made in relation to the accuracy, reliability, or contents of this guide.

Caution: Changes or modifications made in the radio phone, not expressly approved by Motorola, will void the user's authority to operate the equipment.

While Products specifications and features may be subject to change without notice, we are making every possible effort to ensure that user manuals are updated on a regular basis to reflect product functionality revisions. However, in the unlikely event that your manual version does not fully reflect the core functionality of your product, please let us know. You may also be able to access up-to-date versions of our manuals in the consumer section of our Motorola web site, at http://www.motorola.com.

Safety and General Information

IMPORTANT INFORMATION ON SAFE AND EFFICIENT OPERATION. READ THIS INFORMATION BEFORE USING YOUR PHONE.[1]

Exposure To Radio Frequency (RF) Energy

Your phone contains a transmitter and a receiver. When it is ON, it receives and transmits RF energy. When you communicate with your phone, the system handling your call controls the power level at which your phone transmits.

Your Motorola phone is designed to comply with local regulatory requirements in your country concerning exposure of human beings to RF energy.

Operational Precautions

To assure optimal phone performance and make sure human exposure to RF energy is within the guidelines set forth in the relevant standards, always adhere to the following instructions.

External Antenna Care

If your phone has an external antenna, use only the supplied or Motorola-approved replacement antenna. Unauthorised antennas, modifications, or attachments could damage the phone and/or may result in non-compliance with local regulatory requirements in your country.

Do NOT hold the external antenna when the phone is IN USE. Holding the external antenna affects call quality and may cause the phone to operate at a higher power level than needed.

Phone Operation

When placing or receiving a phone call, hold your phone as you would a wireline phone.

CFJN1732B.book Page 9 Tuesday, December 6, 2005 6:29 PM

Body-Worn Operation: Voice Communication

To maintain compliance with RF energy exposure guidelines, if you wear a phone on your body when transmitting voice communications, always place the phone in a Motorola-supplied or approved clip, holder, holster, case, or body harness for this phone, if available. Use of accessories not approved by Motorola may exceed RF energy exposure guidelines.

If you do not use one of the body-worn accessories approved or supplied by Motorola, and are not using the phone held in the normal use position, ensure the phone and its antenna are at least 2.5 centimetres (1 inch) from your body when transmitting.

Data Operation

When using any data feature of the phone, with or without an accessory cable, position the phone and its antenna at least 2.5 centimetres (1 inch) from your body.

Approved Accessories

Use of accessories not approved by Motorola, including but not limited to batteries, antennas, and convertible covers, may cause your phone to exceed RF energy exposure guidelines. For a list of approved Motorola accessories, visit our website at `www.motorola.com`.

RF Energy Interference/Compatibility

Note: Nearly every electronic device is susceptible to RF energy interference from external sources if inadequately shielded, designed, or otherwise configured for RF energy compatibility. In some circumstances your phone may cause interference.

Note: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CFJN1732B.book Page 10 Tuesday, December 6, 2005 6:29 PM

Facilities

Turn off your phone in any facility where posted notices instruct you to do so. These facilities may include hospitals or health care facilities that may be using equipment that is sensitive to external RF energy.

Aircraft

Turn off your wireless device whenever instructed to do so by airline staff. If your device offers a flight mode or similar feature, consult airline staff about use in flight. If your device offers a feature that automatically turns on the phone, then turn off this feature before boarding an aeroplane or entering an area where the use of wireless devices is restricted.

Medical Devices

Pacemakers

Pacemaker manufacturers recommend that a minimum separation of 15 centimetres (6 inches) be maintained between a handheld wireless phone and a pacemaker.

Persons with pacemakers should:

- ALWAYS keep the phone more than 15 centimetres (6 inches) from your pacemaker when the phone is turned ON.
- NOT carry the phone in the breast pocket.
- Use the ear opposite the pacemaker to minimise the potential for interference.
- Turn OFF the phone immediately if you have any reason to suspect that interference is taking place.

Hearing Aids

Some digital wireless phones may interfere with some hearing aids. In the event of such interference, you may want to consult your hearing aid manufacturer to discuss alternatives.

CFJN1732B.book Page 11 Tuesday, December 6, 2005 6:29 PM

Other Medical Devices

If you use any other personal medical device, consult the manufacturer of your device to determine if it is adequately shielded from RF energy. Your physician may be able to assist you in obtaining this information.

Use While Driving

Check the laws and regulations on the use of phones in the area where you drive. Always obey them.

When using your phone while driving, please:

- Give full attention to driving and to the road. Using a phone may be distracting in certain circumstances. Discontinue a call if you can't concentrate on driving.
- Use handsfree operation, if available.
- Pull off the road and park before making or answering a call if driving conditions so require.

Responsible driving best practices can be found in the "Wireless Phone Safety Tips" at the end of this guide and/or at the Motorola website: `www.motorola.com/callsmart`.

Operational Warnings

For Vehicles With an Air Bag

Do not place a phone in the area over an air bag or in the air bag deployment area. Air bags inflate with great force. If a phone is placed in the air bag deployment area and the air bag inflates, the phone may be propelled with great force and cause serious injury to occupants of the vehicle.

CFJN1732B.book Page 12 Tuesday, December 6, 2005 6:29 PM

Gas or Petrol Stations

Obey all posted signs with respect to the use of radio equipment in gas or petrol stations. Turn off your wireless device if instructed by authorised staff.

Potentially Explosive Atmospheres

Turn off your phone prior to entering any area with a potentially explosive atmosphere. Do not remove, install, or charge batteries in such areas. Sparks in a potentially explosive atmosphere can cause an explosion or fire resulting in bodily injury or even death.

Note: The areas with potentially explosive atmospheres referred to above include fuelling areas such as below decks on boats, fuel or chemical transfer or storage facilities, areas where the air contains chemicals or particles, such as grain, dust, or metal powders. Areas with potentially explosive atmospheres are often but not always posted.

Blasting Caps and Areas

To avoid possible interference with blasting operations, turn OFF your phone when you are near electrical blasting caps, in a blasting area, or in areas posted "Turn off electronic devices." Obey all signs and instructions.

Damaged Products

If your phone or battery has been submerged in water, punctured, or subjected to a severe fall, do not use it until you take it to a Motorola Authorised Service Centre to determine if it has been damaged. Do not attempt to dry it with an external heat source, such as a microwave oven.

Batteries and Chargers

Batteries can cause property damage and/or bodily injury such as burns if a conductive material such as jewellery, keys, or beaded chains touch exposed terminals. The conductive material may complete an electrical circuit (short circuit) and become hot. Take care when handling a charged battery, particularly when placing it inside a pocket, purse, or other container with metal objects. **Use only Motorola Original™ batteries and chargers.**

Caution: To avoid risk of personal injury, do not dispose of your battery in a fire.

Your battery, charger, or phone may contain symbols, defined as follows:

Symbol	Definition
	Important safety information will follow.
	Your battery or phone should not be disposed of in a fire.
	Your battery or phone may require recycling in accordance with local laws. Contact your local regulatory authorities for more information.
	Your battery or phone should not be thrown in the trash.
	Your phone contains an internal lithium ion battery.

Choking Hazards

Your phone or its accessories may include detachable parts, which may present a choking hazard to small children. Keep your phone and its accessories away from small children.

CFJN1732B.book Page 14 Tuesday, December 6, 2005 6:29 PM

Glass parts

Some parts of your mobile device may be made of glass. This glass could break if the product is dropped on a hard surface or receives a substantial impact. If glass breaks, do not touch or attempt to remove. Stop using your mobile device until the glass is replaced by a qualified service centre.

Seizures/Blackouts

Some people may be susceptible to epileptic seizures or blackouts when exposed to flashing lights, such as when watching television or playing video games. These seizures or blackouts may occur even if a person never had a previous seizure or blackout.

If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult with your doctor before playing video games on your phone or enabling a flashing-lights feature on your phone. (The flashing-light feature is not available on all products.)

Parents should monitor their children's use of video game or other features that incorporate flashing lights on the phones. All persons should discontinue use and consult a doctor if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation.

To limit the likelihood of such symptoms, please take the following safety precautions:

- Do not play or use a flashing-lights feature if you are tired or need sleep.
- Take a minimum of a 15-minute break hourly.
- Play in a room in which all lights are on.
- Play at the farthest distance possible from the screen.

CFJN1732B.book Page 15 Tuesday, December 6, 2005 6:29 PM

Repetitive Motion Injuries

When you repetitively perform actions such as pressing keys or entering finger-written characters, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. Follow these instructions to avoid problems such as tendonitis, carpal tunnel syndrome, or other musculoskeletal disorders:

- Take a minimum 15-minute break every hour of game playing.
- If your hands, wrists, or arms become tired or sore while playing, stop and rest for several hours before playing again.
- If you continue to have sore hands, wrists, or arms during or after play, stop playing and see a doctor.

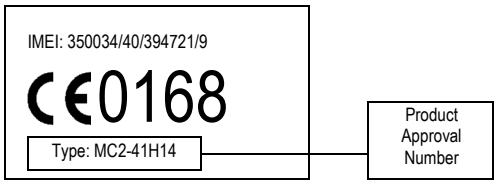
1. The information provided in this document supersedes the general safety information in user's guides published prior to January 28, 2005.

CFJN1732B.book Page 16 Tuesday, December 6, 2005 6:29 PM

European Union Directives Conformance Statement

CE Hereby, Motorola declares that this product is in compliance with:

- The essential requirements and other relevant provisions of Directive 1999/5/EC
- All other relevant EU Directives



The above gives an example of a typical Product Approval Number.

You can view your product's Declaration of Conformity (DoC) to Directive 1999/5/EC (to R&TTE Directive) at www.motorola.com/rtte. To find your DoC, enter the product Approval Number from your product's label in the "Search" bar on the Web site.

CFJN1732B.book Page 17 Tuesday, December 6, 2005 6:29 PM

Caring for the Environment by Recycling

When you see this symbol on a Motorola product, do not dispose the product with household waste.

Recycling Mobile Phones and Accessories

Do not dispose of mobile phones or electrical accessories, such as chargers or headsets, with your household waste. In some countries or regions, collection systems are set up to handle electrical and electronic waste items. Contact your regional authorities for more details. If collection systems aren't available, return unwanted mobile phones or electrical accessories to any Motorola Approved Service Centre in your region.

essentials

about this guide

This guide shows how to locate a menu feature as follows:

Find it: Press ☰ > **Recent Calls** > **Dialed Calls**

This example shows that, from the home screen, you press ☰ to open the menu, highlight and select **Recent Calls**, then highlight and select **Dialed Calls**.

Press ·◎· to scroll to and highlight a menu feature. Press the **Select** key to select the highlighted menu feature.

symbols	
	This means a feature is network/subscription dependent and may not be available in all areas. Contact your service provider for more information.
	This means a feature requires an optional accessory.

SIM card

Your *Subscriber Identity Module* (SIM) card contains personal information like your phone number and phonebook entries.

To insert and use a memory card, see page 29.

Caution: Don't bend or scratch your SIM card. Keep it away from static electricity, water, and dirt.

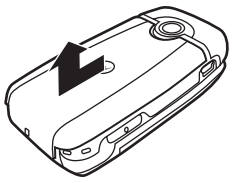
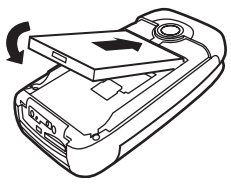
battery

battery installation

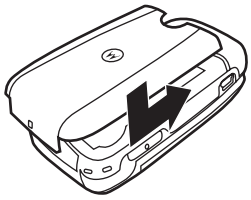
1



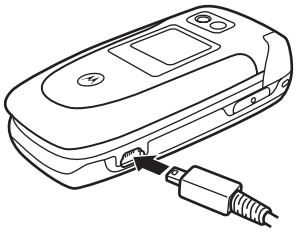
2



3



battery charging



New batteries are not fully charged. Plug the travel charger into your phone and an electrical outlet. Your phone displays **Charge Complete** when finished.

Tip: Relax, you can't overcharge your battery. It will perform best after you fully charge and discharge it a few times.

If your battery is completely drained, a PC USB charger will not charge it. Use the travel charger.

battery tips

Battery life depends on the network, signal strength, temperature, features, and accessories you use.

- Always use Motorola Original batteries and chargers. The warranty does not cover damage caused by non-Motorola batteries and/or chargers.
- New batteries or batteries stored for a long time may take more time to charge.
- When charging your battery, keep it near room temperature.
- When storing your battery, keep it uncharged in a cool, dark, dry place, such as a refrigerator.

- Never expose batteries to temperatures below -10°C (14°F) or above 45°C (113°F). Always take your phone with you when you leave your vehicle.
- It is normal for batteries to gradually wear down and require longer charging times. If you notice a change in your battery life, it is probably time to purchase a new battery.

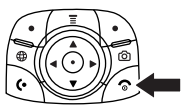
Contact your local recycling center for proper battery disposal.

Warning: Never dispose of batteries in a fire because they may explode.

Before using your phone, read the battery safety information in the "Safety and General Information" section included in this guide.

turn it on & off

To turn on your phone, press and hold ⏻ for a few seconds or until the display turns on. If prompted, enter your 6-digit SIM card PIN code and/or 4-digit unlock code.



Caution: If you enter an incorrect PIN code 3 times in a row, your SIM card is disabled and your phone displays **SIM Blocked**. Contact your service provider.

To turn off your phone, press and hold ⏻ for 2 seconds.

make a call

Enter a phone number and press [call] to make a call.

To "hang up", close the flip or press [end].

answer a call

Note: Your phone cannot receive data over an EDGE network while it is playing videos or some sound files. The EDGE E status indicator appears at the top of your display when you can receive data over an EDGE network.

When your phone rings and/or vibrates, just open the flip or press [call] to answer.

To "hang up," close the flip or press [end].

your phone number

From the home screen, press [menu] [#] to see your number.

Tip: Want to see your phone number while you're on a call? Press [menu] > **My Tel. Numbers**.

To store or edit your name and phone number on your SIM card, press the **Edit** key while displaying it. If you don't know your phone number, contact your service provider.

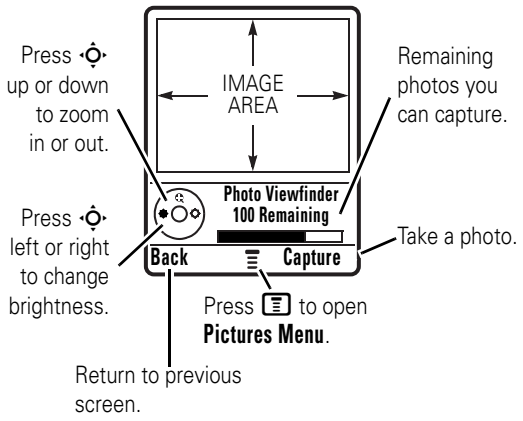
CFJN1732B.book Page 23 Tuesday, December 6, 2005 6:29 PM

main attractions

You can do much more with your phone than make and receive calls!

take & send a photo

Press [camera] to see the camera viewfinder:



1 Point the camera lens at the photo subject.

You can press [menu] to open the **Pictures Menu**. See the table after this procedure.

2 Press the **Capture** key to take a photo.

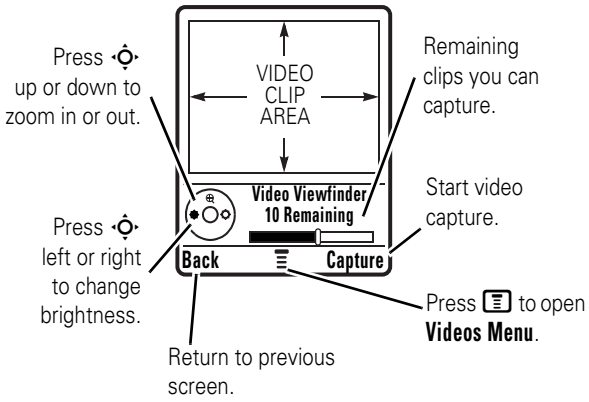
- To delete the photo and return to the active viewfinder, press the **Discard** key.
- To store or send the photo, press the **Store** key.

When the viewfinder is active, press ☰ to open the **Pictures Menu**:

option	
Go to Pictures	View stored pictures and photos.
Switch Storage Device	Choose to store and view pictures on your phone or memory card. **Note: High** resolution photos can be stored only on your memory card.
Auto-Timed Capture	Set a timer for the camera to take a photo.
Pictures Setup	Open the setup menu to adjust photo settings.
View Free Space	See how much memory remains.

record video

Press ☰ > **Multimedia** > **Video Camera** to see the video viewfinder.



Note: You can zoom only before you start recording. The number of clips remaining is an estimate.

If you want to send your video in an MMS message, the video length must be set to MMS. To set length, press ☰ > **Videos Setup** > **Video Length**.

Point the camera lens at the video subject, then:

1 Press the **Capture** key to start the video.

You can press the **Pause** key to pause video capture.

2 Press the **Stop** key to stop the video.

3 Press ☰ > **Store Only** to store the video.

or

Press the **Send** key to send the video in a Multimedia Message.

or

Press the **Discard** key to delete the video and return to the active viewfinder.

MP3 audio player

You cannot use the audio player with a USB cable connected to your phone.

Your phone has an audio player in its **Games & Apps**:

Find it: Press ☰ > **Games & Apps** > **Digital Audio Player**

Press ·ô· left or right to highlight a button at the top of the audio player: play ▶, pause ❚❚, stop ■, previous ⏮, next ⏭, repeat 🔁, shuffle 🔀, and visualizer on/off ⊠

Press ·ô· up or down to highlight an option:

options	
Playlists	Create or play a playlist of songs.
Artists	Select an artist to show or play their songs.
Albums	Select an album to show or play its songs.

options	
Songs	Show and play individual songs. **Note:** All of your phone's songs appear in the **Songs** list. Some songs do not have any **Artists**, **Albums**, or **Genre** information stored, so they don't appear in those lists.
Genres	Select a type of music to show or play songs.
Help	Show instructions on how to use the audio player
About	Show audio player version information

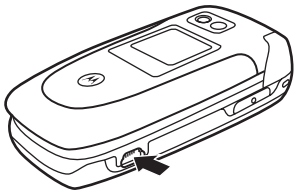
Tip: If you want music in a hurry, you can create a shortcut to the audio player. Highlight **Digital Audio Player** in the **Games & Apps** list, then press and hold ⊡. To use the shortcut from the home screen, press ⊡ and the shortcut key number.

To download songs to your phone, see page 80. To copy files between your phone and a computer, see page 28.

Note: Your phone cannot play MP3 files that have a bit rate higher than 192 kbps. If you try to download or play one of these files, your phone might show you an error or ask you to delete the file.

cable connections

Your phone has a mini-USB port so you can connect it to a computer to transfer data.



You can:

- Synchronize phonebook and datebook information between your phone and a computer or hand-held device.
- Use your phone as a modem to connect to the Internet.
- Use your phone to send and receive data calls from your computer or handheld device.

Note: Motorola Original USB data cables and supporting software are sold separately. Check your computer or hand-held device to determine the type of cable you need.

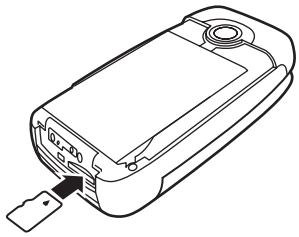
To **transfer data** between your phone and computer, you must install the software included with the Motorola Original data kit. See the data kit user's guide for more information. To make **data and fax calls** through a connected computer, see page 75.

memory card

You can use a removable memory card with your phone to store and retrieve multimedia objects (such as photos and sounds).

Note: If you download a copyrighted file and store it on your memory card, you can use the file only while your memory card is inserted in your phone. You cannot send, copy, or change copyrighted files.

install a memory card



1 Remove the battery door, if necessary.
2 Press the card in until it clicks into place.
3 Replace the battery door.

Do not remove your memory card while your phone is using it or writing files on it.

see and change memory card information

Find it: Press ☰ > **Settings** > **Phone Status** > **Storage Devices**

1 Press ·ọ· to highlight the memory card.
2 Press the **Details** key to see the memory card information

or

Press ☰ to see the **Storage Device** menu, which lets you **Format** or **Rename** the memory card.

To see memory card files, open a file list (such as **Pictures** or **Sounds**) and press ☰ > **Switch Storage Device** > **Trans**.
To see files stored on your phone again, press ☰ > **Switch Storage Device** > **Phone**.

connect the memory card to a computer

You can access your phone's memory card with a PC.

Note: When your phone is connected to a computer, you can only access the memory card through the computer.

On your phone:

Press ☰ > **Settings** > **Connection** > **USB Settings** > **Memory Card**.

This directs the USB connection to your memory card. Attach the Motorola Original USB cable to the accessory port on your phone and to an available USB port on your computer. Then follow these steps:

On your computer:

1. Open your "My Computer" window, where your phone's memory card displays as a "Removable Disk" icon.
2. Click on the "Removable Disk" icon to access the files on your phone's memory card.
3. To store the desired files onto the memory card, drag and drop them as follows: **MP3 files:** > mobile > audio
   screen savers: > mobile > picture
   wallpapers: > mobile > picture
   video clips: > mobile > video
4. When you finish, remove the device by selecting the "Safely Remove Hardware" icon in the system tray at the bottom of your computer screen. Then select "USB Mass Storage Devices" and "Stop".
5. Select "USB Mass Storage Device" then "Ok".

On your phone:

To return to **Data Fax** as your USB default connection, press ☰ > **Settings** > **Connection** > **USB Settings** > **Data/Fax Connection**.

Bluetooth® wireless

Your phone supports Bluetooth wireless *pairing* (also called *linking* or *bonding*). You can pair your phone with a Bluetooth headset or car kit, or pair your phone with a computer to exchange and synchronize files.

Note: The use of wireless devices and their accessories may be prohibited or restricted in certain areas. Always obey the laws and regulations on the use of these products.

turn Bluetooth power on or off

Find it: Press ☰ > **Bluetooth Link** > **Find Me** > **Power** > **On**

If Bluetooth **Power** is **On**, your phone can automatically pair with the handsfree device you have used before. Just turn on the device or move it near the phone.

Note: To extend battery life, use the above procedure and set Bluetooth **Power** to **Off** when not in use. Your phone will not pair with devices until you set Bluetooth **Power** back to **On** and pair your phone with the devices again.

pair with a headset or handsfree device

Before you try to pair your phone with a device, make sure your phone's Bluetooth power is **on** and the device is **on** and **ready** in *pairing* or *bonding* mode (see the user's guide for the device). You can pair your phone with only one device at a time.

Find it: Press ☰ > **Bluetooth Link** > **Handsfree** > **[Look For Devices]**

Your phone lists the devices it finds within range.

1 Highlight a device in the list and press the **Select** key.

2 Press the **Yes** or **Ok** key to pair with the device.

3 If necessary, enter the device passkey (such as 0000) and press the **Ok** key.

When your phone is paired, the Bluetooth indicator displays in the home screen.

Tip: We can't see the device you're holding. For specific information about a device, refer to the instructions that came with it.

copy objects to another device

You can use Bluetooth pairing to copy a media object, phonebook entry, datebook event, or bookmark from your phone to a computer or other device.

1 Highlight the object on your phone that you want to copy to the other device.

2 Press MENU and select **Copy** (for media objects), **Send** (for datebook events), or **Share Phonebook Entry** (for phonebook entries).

3 Select a recognized device name, or **[Look For Devices]** to search for the device where you want to copy the object.

advanced Bluetooth features

feature		
make phone visible to other device	Allow a Bluetooth device to discover your phone: MENU > **Bluetooth Link** > **Setup** > **Find Me**	
pair with recognized device	Pair your phone with a recognized handsfree device: MENU > **Bluetooth Link** > **Handsfree** > *device name*	
drop pairing with device	Highlight the device name and press the **Drop** key.	
switch to device during call	Switch to a headset or car kit during a call: MENU > **Use Bluetooth**	
move multimedia object to device	Move a multimedia object to another device: Highlight the object, press MENU > **Move**, select the device name. **Caution:** Moving an object **deletes** the original object from your phone.	
edit device properties	Edit the properties of a recognized device: Highlight the device name, press the **Edit** key.	
set Bluetooth options	Highlight the device name, press MENU > **Bluetooth Link** > **Setup**	

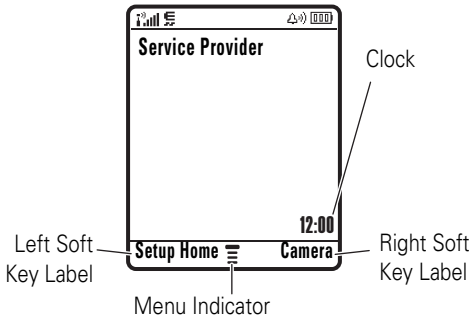
basics

See page 1 for a basic phone diagram.

display

The *home screen* displays when you turn on the phone. To dial a number from the home screen, press number keys and ⌐.

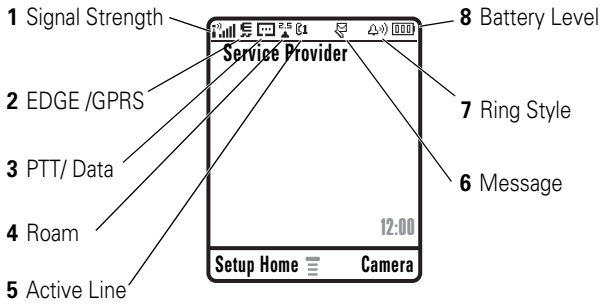
Note: Your home screen may look different from the one below, depending on your service provider.



The *Menu Indicator* ≡ shows that you can press ⌐ to open the menu. *Soft Key Labels* show the current soft key functions. For soft key locations, see page 1.

Your home screen might display news from your service provider at the bottom. To change this news display, press ⌐ > **Settings** > **Personalize** > **Home Screen**.

Status indicators can display at the top of the home screen:



1 **Signal Strength Indicator –** Vertical bars show the strength of the network connection. You can't make or receive calls when i or i X displays.

2 **EDGE/GPRS Indicator –** Shows when your phone is using a high-speed *Enhanced Data for GSM Evolution* (EDGE) or *General Packet Radio Service* (GPRS) network connection. Indicators can include:

= GPRS PDP context active
= EDGE
= GPRS packet data available

3 **PTT / Data Indicator –** Shows when you can make and receive PTT calls ( ) or both PTT calls and Instant Messages ( ). Other indicators can include:

= secure packet data transfer

= unsecure packet data transfer

= secure application connection

= unsecure application connection

= secure *Circuit Switch Data* (CSD) call

= unsecure CSD call

= Bluetooth® connection is active

4 Roam Indicator – Shows when your phone is seeking or using a network outside your home network. Indicators can include:

= 2G home

= 2G roam

= 2.5G home

= 2.5G roam

5 Active Line Indicator – Shows to indicate an active call, or to indicate when call forwarding is on. Indicators for dual-line-enabled SIM cards can include:

= line 1 active

= line 1 active, call forward on

= line 2 active

= line 2 active, call forward on

6 Message Indicator – Shows when you receive a new message. Indicators can include:

= text message

= voice message

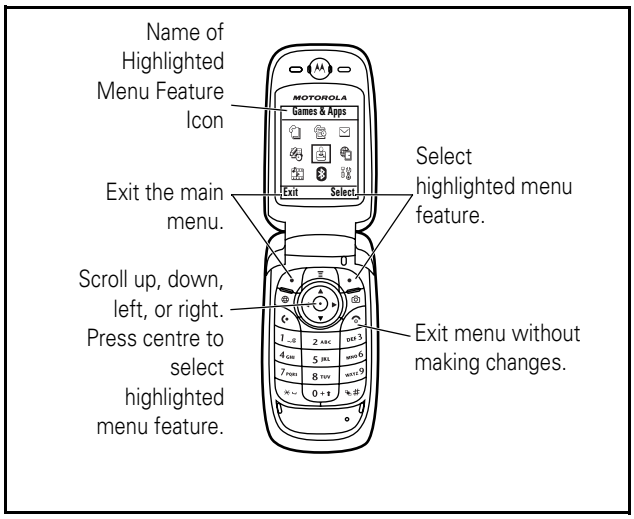
7 Ring Style Indicator – Shows the ring style setting.

= loud ring
= soft ring
= vibrate
= vibrate then ring
= silent

8 Battery Level Indicator – Vertical bars show the battery charge level. Recharge the battery when your phone shows **Low Battery**.

menus

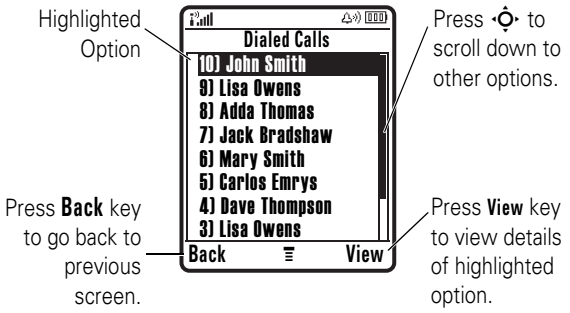
From the home screen, press ☰ to enter the main menu.



The following menu icons may be available, depending on your service provider and service subscription options.

menu features	
Phonebook	Multimedia
Messages	Bluetooth Link
Recent Calls	Settings
Tools	Camera
Games & Apps	Datebook
Web Access	

Some features require you to select an option from a list:

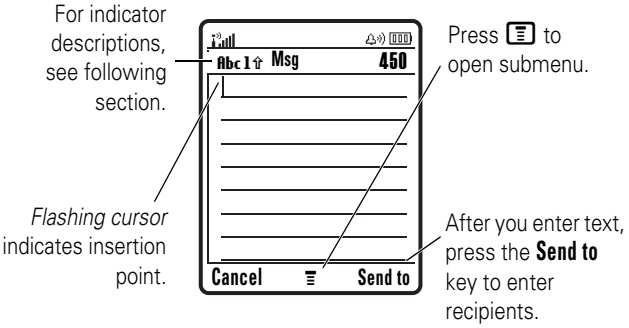


- Scroll up or down to highlight the option you want.
- In a numbered list, press a number key to highlight an option.
- In an alphabetized list, press a key repeatedly to cycle through its letters and highlight the closest matching list option.

- When an option has a list of possible settings, scroll left or right to select the setting.
- When an option has a list of possible numeric values, press a number key to set the value.

text entry

Some features let you enter text.



Press # in a text entry screen to select an entry mode:

entry mode	
🕮 or 1	Your **Primary** text entry mode can be set to any iTAP® 🕮 or tap 1 mode.
🕮 or 2	Your **Secondary** text entry mode can be set to any iTAP 🕮 or tap 2 mode, or set to **None** if you don't want a secondary entry mode.
123	**Numeric** mode enters numbers only.
@	**Symbol** mode enters symbols only.

To set your primary and secondary text entry modes, press ☰ > **Entry Setup** in a text entry screen and select **Primary Setup** or **Secondary Setup**.

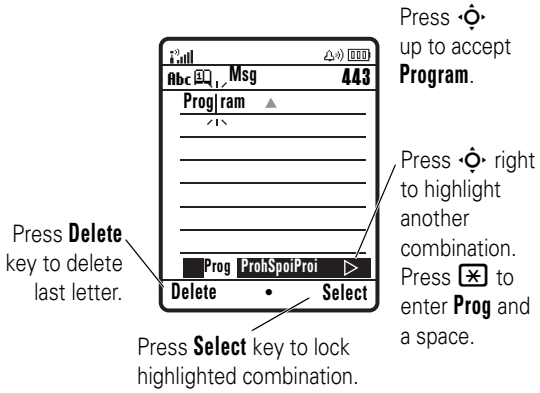
Tip: WANT TO SHOUT YOUR MESSAGE? Press 0 in a text entry screen to change text case to no capital letters (**abc**), next letter capital (**Abc** with 🕮, 🕮, 1⇧, or 2⇧), or all capitals (**ABC** with 🕮, 🕮, 1⬆, or 2⬆).

iTAP® mode

Press # in a text entry screen to switch to iTAP mode. If you don't see 🕮 or 🕮, press ☰ > **Entry Setup** to set iTAP mode as your primary or secondary text entry mode.

iTAP mode lets you enter words using one keypress per letter. The iTAP software combines your keypresses into common words, and predicts each word as you enter it.

For example, if you press 7 7 6 4, your phone displays:



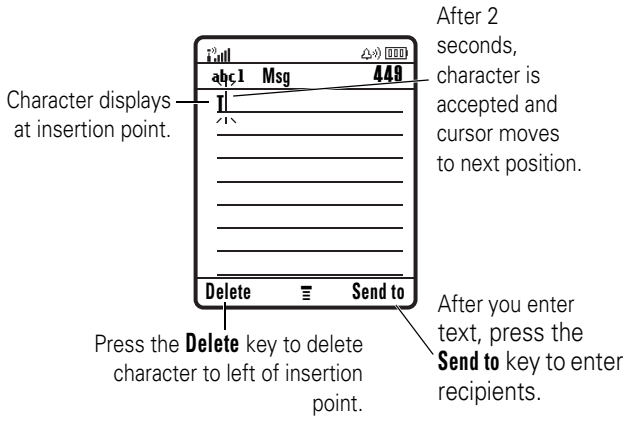
- If you want a different word (such as **Progress**), continue pressing keypad keys to enter the remaining letters.
- To enter numbers quickly, press and hold a number key to temporarily switch to numeric mode. Press the number keys to enter the numbers you want. Enter a space to change back to iTAP mode.
- Press 1 to enter punctuation or other characters.

tap mode

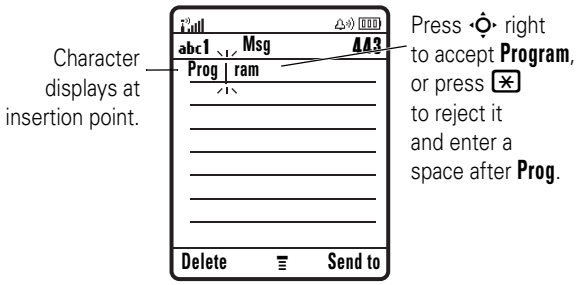
Press # in a text entry screen to switch to tap mode. If you don't see **Abc1** or **Abc2**, press M > **Entry Setup** to set tap mode as your primary or secondary text entry mode.

To enter text in tap mode, press a keypad key repeatedly to cycle through the letters and number on the key. Repeat this step to enter each letter.

For example, if you press 8 one time, your phone displays:



When you enter three or more characters in a row, your phone may guess the rest of the word. For example, if you enter **prog** your phone might display:



- The first character of every sentence is capitalized. If necessary, press down to change the character to lowercase before the cursor moves to the next position.
- Press to move the flashing cursor to enter or edit message text.
- If you don't want to save your text or text edits, press to exit without saving.
- *Tap extended* mode cycles through additional special characters and symbols as you repeatedly press a keypad key.

numeric mode

Press # in a text entry screen until you see **123**. Press the number keys to enter the numbers you want.

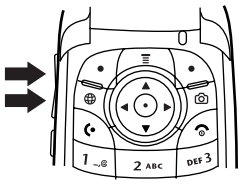
CFJN1732B.book Page 44 Tuesday, December 6, 2005 6:29 PM

symbol mode

Press # in a text entry screen until you see @. Press a keypad key to show its symbols at the bottom of the display. Highlight the symbol you want, then press the **Select** key.

volume

Press the volume keys to:

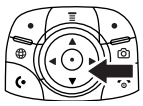


- turn off an incoming call alert
- change the earpiece volume during calls
- change the ringer volume from the home screen

Tip: Sometimes silence really is golden. That's why you can quickly set your ringer to **Vibrate** or **Silent** by holding the down volume key in the home screen.

navigation key

Press the *navigation key* up, down, left, or right to scroll and highlight items in the display. When you highlight something, press the *center key* to select it. The center key usually does the same thing as the right soft key.



CFJN1732B.book Page 45 Tuesday, December 6, 2005 6:29 PM

external display

When your phone is closed, the external display shows the time, date, status indicators, and notifications for incoming calls and other events. For a list of phone status indicators, see page 34.

To set the phone ring style in the external display:

1. Press a volume key to display **Ring Styles**.
2. Press the smart key repeatedly, until the style you want appears.
3. Press a volume key to return to the home screen.

handsfree speaker

You can use your phone's handsfree speaker to make calls without holding the phone to your ear.

During a call, press the **Speaker** key to turn the handsfree speaker on. Your phone displays **Spkrphone On** until you turn it off or end the call.

Note: The handsfree speaker won't work when your phone is connected to a handsfree car kit or headset.

codes & passwords

Your phone's 4-digit **unlock code** is originally set to **1234**. The 6-digit **security code** is originally set to **000000**. If your service provider didn't change these codes, you should change them:

Find it: Press ☰ > **Settings** > **Security** > **New Passwords**

You can also change your **SIM PIN** or call barring passwords.

If you forget your unlock code: At the **Enter Unlock Code** prompt, try entering 1234 or the last four digits of your phone number. If that doesn't work, press ☰ and enter your 6-digit security code instead.

If you forget other codes: If you forget your security code, SIM PIN code, PIN2 code, or call barring password, contact your service provider.

lock & unlock phone

You can lock your phone to keep others from using it. To lock or unlock your phone, you need the 4-digit unlock code.

To **manually lock** your phone: Press ☰ > **Settings** > **Security** > **Phone Lock** > **Lock Now**.

To **automatically lock** your phone whenever you turn it off: Press ☰ > **Settings** > **Security** > **Phone Lock** > **Automatic Lock** > **On**.

Note: You can make emergency calls on a locked phone (see page 55). A locked phone still rings or vibrates for incoming calls or messages, **but you need to unlock it to answer**.

CFJN1732B.book Page 47 Tuesday, December 6, 2005 6:29 PM

customize

ring style

Each ring style profile uses a different set of sounds or vibrations for incoming calls and other events. Here are the profiles you can choose:

Loud	**Vibrate**	**Silent**
Soft	**Vibrate then Ring**	

The ring style profile's indicator displays at the top of your home screen. To choose your profile:

Find it: Press ☰ > **Settings** > **Ring Styles** > **Style:** *style name*

change alerts in a ring style

You can change the alerts for incoming calls and other events. Your changes are saved in the current ring style profile.

Find it: Press ☰ > **Settings** > **Ring Styles** > *style* **Detail**

Note: *Style* represents the current ring style. You can't set an alert for the **Silent** ring style setting.

1. Highlight **Calls** (or **Line 1** or **Line 2** for dual-line phones), then press the **Change** key to change it.
2. Highlight the alert you want, then press the **Select** key.
3. Press the **Back** key to save the alert setting.

time & date

You need to set your phone's time and date to use the datebook.

To **synchronize** the time and date with the network: Press ☰ > **Settings** > **Initial Setup** > **Time and Date** > **Autoupdate** > **On**.

To **manually** set the time and date, turn off **Autoupdate**, then: Press ☰ > **Settings** > **Initial Setup** > **Time and Date** > *time* or *date*.

To choose an **analog or digital** clock for your home screen, press ☰ > **Settings** > **Personalize** > **Home Screen** > **Clock**.

Note: If your home screen displays news information from your service provider, you must turn off the news display to see an analog clock. Press ☰ > **Settings** > **Personalize** > **Home Screen** > **Home Style** > **Without News**. To choose an analog clock, press ☰ > **Settings** > **Personalize** > **Home Screen** > **Setup without News** > **Clock** > **Analog**.

wallpaper

Set a photo, picture, or animation as a wallpaper (background) image in your home screen.

Find it: Press ☰ > **Settings** > **Personalize** > **Wallpaper**

option	
Picture	Select an image for your wallpaper, or **None** for no wallpaper.

option	
Layout	Select **Center** to center the image in the display, **Tile** to repeat the image across the display, or **Fit-to-screen** to stretch the image across the display.

screen saver

Set a photo, picture, or animation as a screen saver. The screen saver displays when the flip is open and no activity is detected for a specified time.

Tip: This feature helps save your screen, but not your battery. To extend battery life, turn off the screen saver.

Find it: Press ☰ > **Settings** > **Personalize** > **Screen Saver**

option	
Picture	Select an image for your screen saver, or **None** for no screen saver.
Delay	Select the length of inactivity before the screen saver displays.

display appearance

To choose a phone **skin** that sets the look and feel of your phone's display: Press ☰ > **Settings** > **Personalize** > **Skin**.

To set your display **brightness**: Press ☰ > **Settings** > **Initial Setup** > **Brightness**.

To save battery life, your **backlight** turns off when you're not using your phone. The backlight turns back on when you

open the flip or press any key. To set how long your phone waits before the backlight turns off:

Press ☰ > **Settings** > **Initial Setup** > **Backlight**.

Note: To turn the backlight on or off for Java™ applications, press ☰ > **Settings** > **Java Settings** > **App Backlight**.

To save battery life, the **display** can turn off when you're not using your phone. The display turns back on when you open the flip or press any key. To set how long your phone waits before the display turns off:

Press ☰ > **Settings** > **Initial Setup** > **Display Timeout**.

answer options

You can use different ways to answer an incoming call. To turn on or turn off an answer option:

Find it: Press ☰ > **Settings** > **In-Call Setup** > **Answer Options**

option	
Multi-Key	Answer by pressing any key.
Open to Answer	Answer by opening the flip.

CFJN1732B.book Page 51 Tuesday, December 6, 2005 6:29 PM

calls

To make and answer calls, see page 22.

turn off a call alert

You can press the volume keys to turn off a call alert before answering the call.

recent calls

Your phone keeps lists of incoming and outgoing calls, even for calls that didn't connect. The most recent calls are listed first. The oldest calls are deleted as new calls are added.

Shortcut: Press [phone] from the home screen to see the dialed calls list.

Find it: Press [menu] > **Recent Calls**

1 Highlight **Received Calls** or **Dialed Calls**, then press the **Select** key.

2 Highlight a call. A ✓ next to a call means the call connected.

- To call the number, press [phone].
- To see call details (like time and date), press the **View** key.
- To see the **Last Calls Menu**, press [menu]. This menu can include:

option	
Store	Create a phonebook entry with the number in the **No.** field. **Store** does not appear if the number is already stored.
Delete	Delete the entry.
Delete All	Delete all entries in the list.
Hide ID/Show ID	Hide or show your caller ID for the next call.
Send Message	Open a new text message with the number in the **To** field.
Add Digits	Add digits after the number.
Attach Number	Attach a number from the phonebook or recent calls lists.
Send Tones	Send the number to the network as DTMF tones. This option displays only during a call.
Talk and Fax	Talk and then send a fax in the same call (see page 75).

redial

1 Press [phone] from the home screen to see the dialed calls list.

2 Highlight the entry you want to call, then press [phone].

If you hear a **busy signal** and you see **Call Failed, Number Busy**, press [phone] or the **Retry** key to redial the number. When the call goes through, your phone rings or

vibrates one time, displays **Redial Successful**, and connects the call.

return a call

Your phone keeps a record of your unanswered calls, and displays **X Missed Calls**, where **X** is the number of missed calls.

1 Press the **View** key to see the received calls list.

2 Highlight the call you want to return, then press ⌐.

notepad

The last set of digits entered on the keypad are stored in *notepad* memory. This can be the last phone number you called, or a number that you "jot down" during a call for later use. To see the number stored in the notepad:

Find it: Press ☰ > **Recent Calls** > **Notepad**

- To call the number, press ⌐.
- To create a phonebook entry with the number in the **No.** field, press the **Store** key.
- To open the **Dialing Menu** to attach a number or insert a special character, press ☰.

hold or mute a call

Press ☰ > **Hold** to put all active calls on hold.

Press **Mute** key (if available) or ☰ > **Mute** to put all active calls on mute.

call waiting

When you're on a call, you'll hear an alert if you receive a second call.

Press ⌐ to answer the new call.

- To switch between calls, press the **Switch** key.
- To connect the two calls, press the **Link** key.
- To end the call on hold, press ☰ > **End Call On Hold**.

To turn the call waiting feature on or off:

Find it: Press ☰ > **Settings** > **In-Call Setup** > **Call Waiting**

caller ID

Calling line identification (caller ID) shows the phone number for an incoming call in your external and internal displays.

Your phone shows the caller's name and picture when they're stored in your phonebook, or **Incoming Call** when caller ID information isn't available.

You can set your phone to play a different ringer ID for an entry stored in your phonebook (see page 65).

To show or hide **your phone number** from the next person you call, enter the phone number and press ☰ > **Hide ID/Show ID**.

emergency calls

Your service provider programs one or more emergency phone numbers, such as 911 or 112, that you can call under any circumstances, even when your phone is locked or the SIM card is not inserted.

Note: Emergency numbers vary by country. Your phone's preprogrammed emergency number(s) may not work in all locations, and sometimes an emergency call cannot be placed due to network, environmental, or interference issues.

1 Press the keypad keys to dial the emergency number.

2 Press [phone] to call the emergency number.

international calls

If your phone service includes international dialing, press and hold [0] to insert your local international access code (indicated by **+**). Then, press the keypad keys to dial the country code and phone number.

1-touch dial

To call phonebook entries 1 through 9, press and hold the single-digit speed dial number for one second.

You can set 1-touch dial to call the entries in your phone's memory phonebook, your SIM card's phonebook, or your Fixed Dial list:

Find it: Press ☰ > **Settings** > **Initial Setup** > **1-Touch Dial** > **Phone**, **SIM**, or **Fixed Dial**

To add a new phonebook entry, see page 64. To edit the **Speed No.** for a phonebook entry, press ☰ > **Phonebook**, highlight the entry, and press ☰ > **Edit**.

voicemail

Your network stores the voicemail messages you receive. To listen to your messages, call your voicemail number.

Note: Your service provider may include additional information about using this feature.

When you **receive** a voicemail message, your phone displays the voicemail message indicator and **New Voicemail**. Press the **Call** key to listen to the message.

To **check** voicemail messages:

Find it: Press ☰ > **Messages** > **Voicemail**

Your phone may prompt you to store your voicemail phone number. If you don't know your voicemail number, contact your service provider.

Note: You can't store a **p** (pause), **w** (wait), or **n** (number) character in this number. If you want to store a voicemail number with these characters, create a phonebook entry for it. Then, you can use the entry to call your voicemail.

CFJN1732B.book Page 57 Tuesday, December 6, 2005 6:29 PM

push to talk (PTT) calls

Push to Talk (PTT) lets you talk walkie-talkie style with other PTT subscribers. You can talk to one person or a group.

PTT and the other related features indicated are network and subscription dependent features, and are not available in all areas. PTT connectivity requires PTT-compatible phones.

Note: To lock your PTT key or turn PTT on or off, see page 60.

make a PTT call

When displays at the top of your home screen, you can make and receive PTT calls. To make a PTT call:

1. Enter a PTT subscriber's phone number in your home screen, or select a contact or group from a list:
   - **PTT Contacts** (press the PTT key to open the list)

     Note: If you change your **Open To** setting, your PTT key does not open the contacts list (see page 61).
   - **PTT Quick Group** (press the PTT key and > **PTT Quick Group**) This lets you select more than one contact for the call.
   - **PTT Groups** (press the PTT key and > **PTT Groups**)
2. Hold the PTT key and speak after you hear the tone. Release the PTT key to let others speak.

To speak during a PTT call, hold your PTT key and speak after the tone. Only one person can speak at a time.

To end the call, press ☎. If nobody speaks for 20 seconds, the call ends.

To send a PTT alert instead of a standard PTT call, highlight a PTT contact in **PTT Contacts** and press the **Alert** key. The contact's phone rings or vibrates, and the contact can speak first. If the contact does not respond, the call ends. You cannot send alerts to groups.

answer a PTT call

When you receive a PTT call, you hear a tone or alert followed by conversation from the caller.

- **To speak** when the caller stops speaking, hold your PTT key and speak after the tone. Only one person can speak at a time.
- **To end the call**, press ☎.

If you change your **My Answer Mode** setting, your phone does not automatically answer as described (see page 61).

When you receive a PTT alert, press the PTT key and speak after the tone. You can also press the **Ignore** key to cancel the call.

Your phone displays **Missed Call** if you miss a PTT alert. It does not display **Missed Call** when you miss a standard PTT call unless you set **My Answer Mode** to **Manual** (see page 61).

CFJN1732B.book Page 59 Tuesday, December 6, 2005 6:29 PM

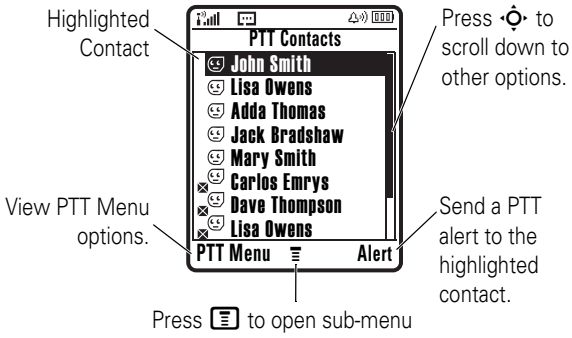
PTT contacts and groups

You can store **PTT Contacts** to make one-to-one calls, or you can store **PTT Groups** to make group calls.

To store a contact, press **PTT key** ☰ > **Add**. Enter the contact's **Name** and phone number (**No.**), then press the **Done** key. Your network stores the contact and your phone returns to the **PTT Contacts** list with the new contact displayed.

To create a group of contacts that you can call at the same time, press **PTT key** ☰ > **PTT Groups** ☰ > **Create New Group**. Enter the group's **Name** and select the **Members**, then press the **Done** key. Your network stores the group and your phone returns to the **PTT Groups** list with the new group displayed.

To view PTT contacts, press the PTT key. Scroll to a contact and press ☰ to **View**, **Edit**, or **Delete** it.



To view PTT groups, press the PTT key and ☰ > **PTT Groups**. Scroll to a group and press ☰ to **View** or **Delete** it. You cannot

edit a group, but you can delete it and create a new one with the members you want.

Icons in the PTT contact and group lists indicate if someone is online (,) or offline (,). They also tell you if a contact is blocked (highlight the contact and press ☰ > **Block** or **Unblock**).

To set an **online alert** to tell you when a contact comes online, highlight the contact and press ☰ > **Enable Online Alert**. You can turn online alert tones on or off in your **PTT Setup** menu (see page 61).

To refresh the contact or group list from your network, press ☰ > **Refresh List**.

To view only your frequently used contacts or groups, press ☰ > **Frequently Used**.

PTT settings

To **turn PTT on or off** from your home screen, press ☰ > **Settings** > **PTT Settings** > **PTT Service** > **On/Off**.

To prevent accidental PTT calls, you can set your phone to **lock the PTT key** automatically when you haven't pressed it for a few minutes and your phone is closed. Press ☰ > **Settings** > **Security** > **Lock PTT Key** and select how long your phone should wait before it locks the key. To unlock the key, hold it for 2 seconds or open the phone. The PTT key unlocks when you receive a PTT call.

You can change your PTT menu and call preferences.

Find it: Press **PTT key** ☰ > **PTT Setup** > **PTT Personalize**

option	
Open To	From the home screen, the PTT key can open the PTT menu (**Main Menu**), or your contacts list sorted by name (Top of List), or most recent call (**Last Call**).
Sort by	Sort your contacts and groups by **Name**, online **Status**, or call **Frequency**.
My Answer Mode	Set the mode for incoming PTT calls to **Manual** (press the PTT key to answer), **Auto-Accept** (standard mode that accepts all calls), or **Do Not Disturb** (accepts no calls).
Tone Volume	Set the volume for the tone you hear when it is your turn to speak.
PTT Speaker	Turn the speakerphone **On** or **Off** for PTT calls.
Set Online Alert Tone	You can set an online alert to tell you when a contact or group comes online (highlight the entry in your **PTT Contacts** or **PTT Groups** and press ☰ > **Enable Online Alert**). This setting tells your phone whether to play these alert tones (**On**) or not (**Off**).

CFJN1732B.book Page 62 Tuesday, December 6, 2005 6:29 PM

other features

advanced calling

feature	
conference call	During a call: Dial next number, press [O], press the **Link** key.
transfer a call	During a call: [M] > **Transfer**, dial transfer number, press [O]
attach a phone number	Dial an area code or prefix for a phonebook number, then: [M] > **Attach Number**
speed dial	Speed dial a phonebook entry: Enter speed dial number, press [#], press [O]. To add a phonebook entry, see page 64. **Tip:** If you forget Aunt Mildred's speed dial number, press [M] > **Phonebook**, highlight her entry, and press the **View** key.
call forwarding	Set up or cancel call forwarding: [M] > **Settings** > **Call Forward**

feature	
restrict calls	Restrict outgoing or incoming calls: M > **Settings** > **Security** > **Restrict Calls**
call barring	Restrict outgoing or incoming calls: M > **Settings** > **Security** > **Call Barring**
change phone line	If you have a dual-line-enabled SIM card, you can change your line to make and receive calls from your other phone number. M > **Settings** > **Phone Status** > **Active Line** The active line indicator shows the active phone line (see page 36).
fixed dial	When you turn on fixed dialing, you can call only numbers stored in the fixed dial list. Turn fixed dialing on or off: M > **Settings** > **Security** > **Fixed Dial** Use the fixed dial list: M > **Tools** > **Dialing Services** > **Fixed Dial**
DTMF tones	Activate DTMF tones: M > **Settings** > **Initial Setup** > **DTMF** To send DTMF tones during a call, just press number keys or highlight a number in the phonebook or recent calls lists and press M > **Send Tones**.

phonebook

feature	
add new entry	MENU > **Phonebook** MENU > **New** > **Phone Number** or **Email Address** **Shortcut:** Enter a phone number in the home screen, then press the **Store** key to create an entry for that number. **Tip:** One phone isn't enough for some people. When creating a phonebook entry, select **More** to store another number for the same **Name**.
dial number	Call a number stored in the phonebook: MENU > **Phonebook**, highlight the phonebook entry, press SEND **Shortcut:** In the phonebook, press a keypad key one or more times to jump to entries that begin with the key's letters.
record a voice name	When creating a phonebook entry, highlight **Voice Name** and press the **Record** key. Press and release the voice key and say the entry's name (within 2 seconds). When prompted, press and release the voice key and repeat the name. **Note:** The **Voice Name** option isn't available in entries stored on the SIM card.

CFJN1732B.book Page 65 Tuesday, December 6, 2005 6:29 PM

feature	
voice dial number	Voice dial a number stored in the phonebook: Press and release the voice key, and say the entry's name (within 2 seconds).
set ringer ID for entry	Assign a ring alert (ringer ID) to an entry: M > **Phonebook** > *entry* M > **Edit** > **Ringer ID** > *ringer name* **Note:** The **Ringer ID** option isn't available in entries stored on the SIM card. Activate ringer IDs: M > **Settings** > **Ring Styles** > *style* **Detail** > **Ringer IDs**
set picture ID for entry	Assign a photo or picture to display when you receive a call from an entry: M > **Phonebook** > *entry* M > **Edit** > **Picture** > *picture name* **Note:** The **Picture** option isn't available in entries stored on the SIM card.
set picture ID view	Display entries as a text list, or with picture caller ID photos: M > **Phonebook** M > **Setup** > **View by** > *view name*

feature

set category view	MENU > **Phonebook** MENU > **Categories** > *category view* You can display **All** entries, entries in a predefined category (**Business**, **Personal**, **General**, **VIPs**), or entries in a category you create.
set primary number or address	Set the primary number for an entry with multiple numbers: MENU > **Phonebook**, highlight the entry, press MENU > **Set Primary** > *number* or *address* **Tip:** In **Primary** number view mode, you can still peek at other numbers stored for the same name. Highlight the name and press ·Ô· left or right to see the other numbers.
create group mailing list	MENU > **Phonebook** MENU > **New** > **Mailing List**

CFJN1732B.book Page 67 Tuesday, December 6, 2005 6:29 PM

feature	
sort phonebook list	Set the order in which entries are listed: ☰ > **Phonebook** ☰ > **Setup** > **Sort by** > *sort order* You can sort the phonebook list by **Name**, **Speed No.**, **Voice Name**, or **Email**. When sorting by name, you can display **All** numbers or just the **Primary** number for each name.
copy phonebook entry	Copy an entry from the phone to the SIM card, or from the SIM card to the phone: ☰ > **Phonebook**, highlight the entry, press ☰ > **Copy** > **Entries** > **To**
send phonebook entry in a text message	Send a phonebook entry in a text or email message: ☰ > **Phonebook**, highlight the entry, press ☰ > **Send Contact**
send phonebook entry over Bluetooth® connection	Send a phonebook entry to another phone, computer, or device: ☰ > **Phonebook**, highlight the entry, press ☰ > **Share Phonebook Entry**

messages

feature	
send text message	> **Messages** > **Create Message** > **New Text Message**
send multimedia message	> **Messages** > **Create Message** > **New Multimedia Msg**
send email	> **Messages** > **Create Message** > **New Email**
send voice message	> **Messages** > **Create Message** > **New Voice Msg** To record the voice message, press the **Record** key, speak, then press the **Stop** key. Your phone inserts the voice recording into a message and lets you enter email addresses or phone numbers to receive the message.
use a multimedia template	Open a multimedia template with preloaded media: > **Messages** > **Create Message** > **MMS Template**
read new message	When your phone displays **New Message**, press the **Read** key to read the message you received.

feature	
read old messages	MENU > **Messages** > **Message Inbox** Icons next to each message indicate if it is locked, has an attachment, or is urgent !. Press MENU to perform various operations on a message.
read old email	MENU > **Messages** > **Email Msgs** Press MENU to perform various operations on a message.
store message objects	Go to a multimedia message page, or highlight an object in a letter, then: MENU > **Store**
store text messages on your SIM card	To store incoming text messages on your SIM card, press: MENU > **Messages** > MENU > **Message Setup** > **Text Msg Setup** > **Store To** > **SIM**
browser messages	Read messages received by your micro-browser: MENU > **Messages** > **Browser Msgs**
info services	Read subscription-based information services messages: MENU > **Messages** > **Info Services**

feature	
set up more email accounts	You can set up, edit, and use more than one email account on your phone. Each account stores protocol, host, port, and other information. MENU > **Messages** MENU > **Email Msg Setup** > **Account Settings** To edit it an account, select it. To set up a new account, select **Create New**. **Note:** Your phone displays a folder for each email account under MENU > **Messages** > **Email Msgs**.

personalizing

feature	
language	Set menu language: MENU > **Settings** > **Initial Setup** > **Language**
scroll	Set the highlight bar to stop or wrap around in menu lists: MENU > **Settings** > **Initial Setup** > **Scroll**
activate ringer IDs	Activate ringer IDs assigned to phonebook entries and categories: MENU > **Settings** > **Ring Styles** > *style* **Detail** > **Ringer IDs**
ring volume	MENU > **Settings** > **Ring Styles** > *style* **Detail** > **Ring Volume**

feature	
keypad volume	> **Settings** > **Ring Styles** > *style* **Detail** > **Key Volume**
reminders	Set reminder alerts for messages that you receive: > **Settings** > **Ring Styles** > *style* **Detail** > **Reminders**
news display	If your service provider broadcasts news information that always appears in your home screen, you can turn the news display on or off: > **Settings** > **Personalize** > **Home Screen** > **Home Style** > **Without News** or **With News**
menu view	Display the main menu as graphic icons or as a text-based list: > **Settings** > **Personalize** > **Main Menu** > **View**
main menu	Reorder your phone's main menu: > **Settings** > **Personalize** > **Main Menu** > **Reorder**

feature	
show/hide menu icons	Show or hide menu feature icons in the home screen: M > **Settings** > **Personalize** > **Home Screen** > **Home Keys** > **Icons** **Note:** In the **Home Screen** menu, select **Setup with News** or **Setup without News** if your service provider has a news display.
change home keys	Change the features for the soft keys and navigation key in the home screen: M > **Settings** > **Personalize** > **Home Screen** > **Home Keys** **Note:** In the **Home Screen** menu, select **Setup with News** or **Setup without News** if your service provider has a news display.
shortcuts	Create a shortcut to a menu item: Highlight the menu item, then press and hold M. Use a shortcut: Press M, then press the shortcut number.
master reset	Reset all options **except** unlock code, security code, and lifetime timer: M > **Settings** > **Initial Setup** > **Master Reset**

feature	
master clear	Clear all settings and entries you made **except** SIM card information, downloaded pictures and sound files, and reset all options **except** unlock code, security code, and lifetime timer: M > **Settings** > **Initial Setup** > **Master Clear** **Caution:** Master clear **erases all information you have entered** (including phonebook and datebook entries) **and content you have downloaded** (including photos and sounds) stored in your phone's memory. After you erase the information, you can't recover it.

call times & costs

Network connection time is the elapsed time from the moment you connect to your service provider's network to the moment you end the call by pressing O. This time includes busy signals and ringing.

The amount of network connection time you track on your resettable timer may not equal the amount of time for which you are billed by your service provider. For billing information, contact your service provider.

feature	
call times	Display call timers: MENU > **Recent Calls** > **Call Times**
in-call timer	Display time or cost information during a call: MENU > **Settings** > **In-Call Setup** > **In-Call Timer**
call cost	Display call cost trackers: MENU > **Recent Calls** > **Call Cost**

handsfree

Note: The use of wireless devices and their accessories may be prohibited or restricted in certain areas. Always obey the laws and regulations on the use of these products.

feature	
speakerphone	Activate a connected external speakerphone during a call: Press the **Speaker** key (if available, or MENU > **Spkrphone On**).
auto answer (car kit or headset)	Automatically answer calls when connected to a car kit or headset: MENU > **Settings** > **Car Settings** or **Headset** > **Auto Answer**
voice dial (headset)	Enable voice dial with headset send/end key: MENU > **Settings** > **Headset** > **Voice Dial**

feature	
auto handsfree (car kit)	Automatically route calls to a car kit when connected: MENU > **Settings** > **Car Settings** > **Auto Handsfree**
power-off delay (car kit)	Set the phone to stay on for a specified time after the ignition is switched off: MENU > **Settings** > **Car Settings** > **Power-Off Delay**
charger time (car kit)	Charge the phone for a specified time after the ignition is switched off: MENU > **Settings** > **Car Settings** > **Charger Time**

data & fax calls

To connect your phone with a USB cable, see page 27.

feature	
send data or fax	Connect your phone to the device, then place the call through the device application.
receive data or fax	Connect your phone to the device, then answer the call through the device application.
talk then fax	Connect your phone to the device, enter fax number, press MENU > **Talk and Fax**, then press SEND to make the call.

feature	
using sync	You can call an Internet server and synchronize your phonebook and datebook entries with the server. To **set up** an Internet sync partner, press MENU > **Settings** > **Connection** > **Sync** > **[New Entry]**. Enter the server details, including **Server URL** (you can omit **http://**) and **Data Path** (the folder below the URL where your data is stored). To **synchronize files** with a partner you set up, select the partner from the list in MENU > **Settings** > **Connection** > **Sync**.

network

feature	
network settings	Display network information and adjust network settings: MENU > **Settings** > **Network**

personal organizer

feature	
set alarm	MENU > **Tools** > **Alarm Clock**
turn off alarm	When an alarm displays: To turn off the alarm, press the **Disable** key or ⏻. To set an 8 minute delay, press the **Snooze** key.
add new datebook event	MENU > **Tools** > **Datebook**, highlight the day, press ·●·, press MENU > **New**
view datebook event	Display or edit event details: MENU > **Tools** > **Datebook**, highlight the day, press ·●·, press the **View** key
event reminder	When an event reminder displays: To see reminder details, press the **View** key. To close the reminder, press the **Exit** key.
send datebook event to another device	Send a datebook event to another phone, computer, or device: MENU > **Tools** > **Datebook**, highlight the day, press ·●·, highlight the event, press MENU > **Send**

feature	
create voice record	Create a voice record: Press and hold the voice key, speak into the phone, release the voice key. **Note:** Recording phone calls is subject to varying state and federal laws regarding privacy and recording of conversations. Always obey the laws and regulations on the use of this feature.
play voice record	Play back a voice record: Ⓜ > **Tools** > Voice Records > *voice record*
calculator	Ⓜ > **Tools** > **Calculator**
currency converter	Ⓜ > **Tools** > **Calculator** Ⓜ > **Exchange Rate** Enter exchange rate, press the **Ok** key, enter amount, and press Ⓜ > **Convert Currency**.

security

feature	
SIM PIN	Lock or unlock the SIM card: MENU > **Settings** > **Security** > **SIM PIN** **Caution:** If you enter an incorrect PIN code 3 times in a row, your SIM card is disabled and your phone displays **SIM Blocked**.
lock feature	MENU > **Settings** > **Security** > **Lock Application**
manage certificates	Enable or disable Internet access certificates stored on your phone: MENU > **Settings** > **Security** > **Certificate Mgmt** Certificates are used to verify the identity and security of Web sites when you download files or share information.

fun & games

For basic information on the camera, see page 23.

feature	
manage pictures	Manage photos, pictures, and animations: MENU > **Multimedia** > **Pictures**
manage video clips	MENU > **Multimedia** > **Videos**

feature	
manage sounds	Manage ring tones and music that you have downloaded or composed: MENU > **Multimedia** > **Sounds**
create ring tones	Create ring tones that you can use with your phone: MENU > **Multimedia** > **Sounds** > **[New iMelody]**
start micro-browser	Just press WEB.
download objects from Web page	Download a picture, sound, or other object from a Web page: Press WEB, go to the page that links to the file, highlight the link, and select it. **Note:** Normal airtime and/or carrier usage charges apply.
Web sessions	Select or create a Web session: MENU > **Web Access** > **Web Sessions**
download game or application	You can download a Java™ game or application the same way you download pictures or other objects: Press WEB go to the page that links to the file, highlight the link, and select it. **Note:** Normal airtime and/or carrier usage charges apply.

CFJN1732B.book Page 81 Tuesday, December 6, 2005 6:29 PM

feature	
start game or application	Start a Java™ game or application: MENU > **Games & Apps**, highlight the game or application, press the **Select** key **Note:** To install and run games stored on your memory card, press MENU > **Games & Apps** > **[Install New]**.

Specific Absorption Rate Data

This model meets international guidelines for exposure to radio waves.

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.

The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The ICNIRP SAR limit for mobiles devices used by the general public is 2 W/kg and the highest SAR value for this device when tested at the ear was 0.72 W/kg.[1] As mobile devices offer a range of functions, they can be used in other positions, such as on the body as described in this user guide.[2] In this case, the highest tested SAR value is 0.64 W/kg.[1]

As SAR is measured utilizing the device's highest transmitting power, the actual SAR of this device while operating is typically below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum level required to reach the network.

While there may be differences between the SAR levels of various phones and at various positions, they all meet the governmental requirements for safe exposure. Please note that improvements to this product model could cause differences in the SAR value for later products; in all cases, products are designed to be within the guidelines.

The World Health Organization has stated that present scientific information does not indicate the need for any special precautions for the use of mobile devices. They note that if you want to reduce your exposure

CFJN1732B.book Page 83 Tuesday, December 6, 2005 6:29 PM

then you can do so by limiting the length of calls or using a "hands-free" device to keep the mobile phone away from the head and body.

Additional Information can be found on the websites of the World Health Organization (`http://www.who.int/emf`) or Motorola, Inc. (`http://www.motorola.com/rfhealth`).

1. The tests are carried out in accordance with international guidelines for testing. The limit incorporates a substantial margin for safety to give additional protection for the public and to account for any variations in measurements. Additional related information includes the Motorola testing protocol, assessment procedure, and measurement uncertainty range for this product.
2. Please see the *Safety and General Information* section about body worn operation.
