## **Declaration of Conformity**

Hereby, Sharp Telecommunications of Europe Ltd, declares that this GX20 is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

A copy of the original declaration of conformity can be found at the following Internet address: http://www.sharp-mobile.com

# QUICKSTART GUIDE 1: GETTING STARTED

The Sharp GX20 is one of the most advanced mobile handsets available. With it you will be able to use its built-in camera to take pictures and video clips, play arcade quality games, listen to life-like polyphonic ringtones and sounds, send Multimedia messages, and connect to Vodafone live! and the mobile internet.

But before you can do any of this, first you need to make sure your handset is prepared.

1. Inserting your SIM card:

Slide off the battery cover, and remove the battery. Slide your Vodafone SIM card (with the gold contacts facing downwards) into its holder. Replace the battery and cover.

2. Charging the battery:

Before using your handset for the first time, it's important to charge the battery for at least 2 hours (see page 14 of the Manual).

3. Turning it on and off:

Open the handset, then press and hold the red (2) key. Do the same to turn it off again.

The GX20 has many features, but exploring and using them is simple. thanks to the 5-way central navigation key and the contextual softkeys.

(Centre key): Use to select an icon or menu item. In Standby: Takes you to the main Menu (shown in phone).

In Camera mode: Takes a picture or starts/stops video recording.

(Navigation keys): Use to move between icons in menus and item lists. (In Standby): Brings up commonly used menus (Contacts List, Applications and Saved

Pictures).

99

The Softkey selects whatever icon or command is shown in the bottom left of the screen. The 🔾 softkey selects the bottom right of the screen (this usually acts as Cancel or Back.) The key will select what's in the middle.

(When ringing): Answers a call. (~)

(In Standby): Brings up Last Dialled numbers.

(During call): Ends a call.

(Press and hold): Turns handset on and off.

(In menus): Takes you back to the Standby screen.

Takes you to the Vodafone live! home page. (0)

## QUICKSTART GUIDE 3: THE CAMERA

#### 1. Video Camera mode:

Go to the main Menu (press ) in Standby mode), select the Camera icon (you'll see the word 'Camera' in the red title bar), then press . Select Video Camera.

## 2. Recording a video clip:

The screen becomes your viewfinder. You can zoom in (up to 4×) by pressing the (\*\*) key (the (\*\*) key zooms out again). You can also adjust the brightness using the (\*\*) and (\*\*) keys. Then press (\*\*) to start recording. When you've finished, press (\*\*) again.

## 3. Saving your video:

Now you'll be offered the choice of Save or Preview. Choose Preview to review your clip, then press (it will be saved in My Stuff in the main Menu). If not, press (Cancel), and try again.

## 4. Digital Camera mode:

Choose Digital Camera in the Camera menu (or press the  $\bigcirc$  key in Standby mode). Press  $\bigcirc$  to take the picture. Press  $\bigcirc$  [Save] to save it (in My Stuff), or press  $\bigcirc$  [Cancel] and take it again.

Tip: You can change the camera viewfinder to the external display (for taking pictures/ videos of yourself) by pressing the we key. And you can adjust the Macro dial around the lens to take close-up shots ( ).

# QUICKSTART GUIDE 4: MULTIMEDIA MESSAGING

Life is more than just text. With Multimedia Messaging you can now send video clips, pictures and sounds as well! Your handset is already enabled to send and receive Multimedia Messaging, but if you have any problems call your local Vodafone customer services.

1. Create a new Multimedia message:

Select Messages in the main Menu (or press the  $\bigodot$  key in Standby mode). Select Multimedia Messages, then Create Message.

2. Write your message:

Use the keypad to write your text. To enter punctuation or other characters, press the 
key, then select the symbol you want. For a space, press 
.

Tip: To turn Predictive Text (T9) off and on while entering text, press and hold the key (you'll see the T9 symbol at the top of the screen). Press and hold the key to cycle through the Input Method (capitals, numeric, etc.).

3. Add your video clip: ( symbol in message menu bar)

Press  $\bigcirc$  [Options] and select Video Clip. Highlight the clip you want to send. Press  $\bigcirc$ , then press  $\bigcirc$  [Back].

Tip: To send video you may have to adjust the setting. Select Multimedia Messages in the Messages menu, then press  $\bigcirc$  [Options]. Choose Settings, Slide Show then make sure that Off is selected.

4. Add your picture: (☐ symbol in message menu bar)
Press (☐ [Options] and select Picture. Highlight the picture you want, press (☐ , then press (☐ [Back].

## **QUICKSTART GUIDE**

5. Add a sound file: ( symbol in message menu bar)

Press ( [Options] and select Sound. To listen to the sounds, press ( [Options], then Play. Highlight the sound you want, press ( ), then press ( ) [Back].

6. Preview your message:

Then press  $\bigcirc$  [Options], and select Preview Message. If you're happy with the message, press  $\bigcirc$ , then  $\bigcirc$  again to go to the To: screen.

7. Send to another mobile:

Enter the number of the mobile phone you want to send it to. Press \_\_\_\_, then select Send and press \_\_\_\_ again. If the receiving phone can't display Multimedia messages or video clips, they'll be sent a link to a web page they can view them on.

Tip: Try sending it to yourself to see how it works!

8. Send to an email address:

After Step 6, press  $\bigcirc$  [Options], and select Input Method. Choose abc and then press  $\bigcirc$  [Back]. Then write the email address (using the  $\bigcirc$  key to bring up the symbols menu for the  $\bigcirc$  key). Press  $\bigcirc$ , then select Send and press  $\bigcirc$  again.

Tip: Press  $\bigcirc$  [Options], then select Search in the To: screen to bring up your Contacts list. Then choose the mobile number or email address for the contact you wish to send it to. It will be entered in the To: screen automatically.

# QUICKSTART GUIDE 5: Vodafone live!

Vodafone live! is a mobile internet portal which is your gateway to a new world of information, games, music and sevices.

This works very like an ordinary web browser. Use the navigation keys to highlight the item you want to select, then press to open that page. Press [Back] to go back a page. Press [Options] for the Browser Option menu.

#### Connect to Vodafone live!:

Simply press the we (under the Navigation key) to connect you to the Vodafone live! main menu. To exit, press the key.

Tip: Your GX20 uses GPRS, a fast way of getting mobile information. Also, the connection is 'always on' — which means no wait for dialling up. You only pay for data you send or get, not how long you're connected.

Or link directly to Vodafone live! services:

In the main Menu, select the Vodafone live! section, and choose your service:

Games: Online fun and games to download...

Ringtones: Download music, sounds and ringtones.

Pictures: Download images, animations and background wallpaper.

News: Get the latest news as it happens...

Sport: News, results and latest scores (with pictures).

Find & Seek: Get the local information you need, wherever you are.

Chat: Instant messaging and text chat with all your friends.

Search: Find what you need in Vodafone live!

Tip: Vodafone live! is growing and changing all the time, so these options may vary. Keep checking it out to see what's new.

## QUICKSTART GUIDE 6: DOWNLOADING

You can download from the Vodafone live! portal or the handset shortcuts (see previous page), or use the Download More menus:

## 1. Download a new ringtone:

Your GX20 uses polyphonic ringtones for a more life-like sound. Go to the My Stuff section from the main Menu, choose Sounds and then Download More. Choose the ringtone you'd like and follow the instructions to download it.

Tip: To activate your ringtone, go to Profiles (in the main Menu), then choose Normal, then select Options/Personalise/Assign Melody. Choose My Sounds and select your downloaded ringtone.

## 2. Download new background wallpaper:

To choose a new background image for your phone, go to My Stuff/Pictures/ Download More. Choose an image and follow the instructions to download it. Then go to Settings (in the main Menu)/Phone Settings/Main Display/Wallpaper/My Pictures, and select your downloaded image.

## 3. Download new games:

To add more arcade quality games to your handset, go to Fun & Games (in the main Menu) and choose Games & More/Download More. Choose a game to download, and you'll find it in Fun & Games/Games & More/Applications.

Here are a few tips to help you use your new handset. There's much more information in the manual — or you could just explore all the menus and options screens...

#### 1. Silent mode:

To switch your handset to silent mode, press and hold the key. Highlight the Silent profile and select it. Select the Normal profile to go back to your usual setting.

## 2. International dialling:

Press and hold the key for the (+) sign when dialling international numbers.

#### 3. Voice Memo:

Press then to bring up the Voice Memo application. Press to record, and again to stop. You can send voice memos as part of a Multimedia message.

## 4. Front light:

Press and hold the side key on the left side of the handset (in Standby mode) to turn the light on and off (it can be used as a makeshift torch). Press the side key to change the colour (the last selection cycles through them all like a disco light).

## 5. External display:

You can customise your External display in the same way as your main screen. Go to Phone Settings from the main Menu, then choose External Display. Now you can change the way the clock looks, the background picture, even the icon displayed when there's a call...

## Introduction

Congratulations and thank you for choosing the GX20.

### **Troubleshooting**

Problem	Solution
The phone does not turn on.	Make sure the battery is properly inserted and charged.
PIN code or PIN2 code is rejected.	Make sure you have entered the correct code (4 to 8 digits).     Your SIM card/protected functions will become locked after 3 unsuccessful attempts.     Contact your SIM provider if you do not have the correct PIN code.
The SIM card becomes locked.	Enter PUK code (8 digits) provided by your service provider (if supported).     If the attempt is successful, enter the new PIN code and confirm your phone is operational again. Otherwise contact your dealer.
The display is difficult to read.	Adjust the backlight brightness for the main display, and adjust the LCD contrast for the external display.

Problem	Solution
Phone functions do not work after the phone is turned on.	Check the radio signal strength indicator as you may be outside the service area. Check to see if any error message is displayed when you turn your phone on. If so, contact your dealer. Make sure the SIM card is correctly inserted.
Calls cannot be made or received.	If the message "SIM Card Error" is displayed at start-up, you cannot use your SIM card or the SIM card is damaged. Contact your dealer or network service provider. Check your call barring, fixed dialling setting, remaining battery and call forwarding settings. Check if your phone is currently performing data communication using Infrared (IrDA) or a data cable. Check the remaining balance if you are using a pre-paid SIM card.

Problem	Solution
Call quality is poor.	Your current location may not provide good call quality (i.e., in a car or train). Move to a location where radio signal strength is greater.
Cannot access network service.	<ul> <li>Check where your account has been registered and where the service is available.</li> </ul>
Cannot send or receive Text Message.	Make sure you are correctly subscribed for the Short Message Service, that the network supports this service, and that the centre number is set up correctly. If not, contact your network service provider.
Cannot connect to Multimedia Message service provider.	MMS settings and configuration may be missing or incorrect or the network does not support it. Check your service provider's access point number. Contact your service provider to confirm the correct settings.

Problem	Solution
Limited memory available.	Delete any unnecessary data.
Call is terminated unexpectedly.	Magnetised objects such as health necklaces placed near the phone may terminate the call. Keep your phone away from such objects.
No entries are displayed in the Contacts List	Confirm that the source setting (Handset or SIM) and View Groups setting are made correctly.
Fax transmission failure	Before transmitting fax data, configure your fax software to use the software flow control.     Use of the optional data cable is recommended for transmitting fax data.

# Safety Precautions and Conditions of Use

Your phone conforms to international regulations insofar as it is used under normal conditions and in accordance with the following instructions.

### **CONDITIONS OF USE**

### **Electromagnetic waves**

- Do not switch on your phone aboard an aircraft (as your phone may interfere with the aircraft's electronic systems). Current legislation forbids this use and legal action can be taken against the user.
- Do not switch on your phone in a hospital, except in designated areas.
- Use of your phone's function may affect the performance of medical electronic units (pacemakers, hearing aids, insulin pumps, etc.). When the phone function is on, do not bring it near medical equipment or into areas in which medical equipment is being used. If you have a hearing aid or a pacemaker, only use the phone on the opposite side of your body from where it is located. The phone should be kept at least 6 inches (15.24 cm) from a pacemaker ANYTIME the phone is switched on.

- Do not switch on your phone near gas or flammable substances.
- Observe the rules concerning the use of mobile phones at gasoline stations, chemical plants and at all sites where a risk of explosion exists.

### Caring for your phone

- Do not allow children to use your phone without supervision.
- Do not open or attempt to repair your phone yourself.
   The product can only be repaired by authorised service personnel.
- Do not drop your phone or subject it to severe impacts. Bending the body and pushing the display or keys with extreme force could damage the phone.
- Do not use solvents to clean your phone. Use only a soft, dry cloth.
- Do not carry your phone in your back pocket as it could break when you sit down. The display is made of glass and is particularly fragile.
- Avoid touching the external connector on the underside of the phone, since the delicate components within can be damaged by static electricity.

### **Battery**

- Use your phone only with batteries, chargers and accessories recommended by the manufacturer. The manufacturer disclaims any liability for damage caused by the use of other chargers, batteries or accessories.
- Network configuration and phone usage will affect talk-time and stand-by time.
   Using the games or camera will hasten battery consumption.
- When the battery charging alert is displayed on the screen, charge the battery as soon as possible. If you continue using your phone ignoring the alert, the phone may cease to function, and all data and settings you have stored may be lost at any moment.
- Before removing the battery from the phone, make sure the phone is switched off.
- Replace and charge the new battery as soon as possible after removing the old one.
- Do not touch the battery terminals. Batteries can cause damage, injury or burns if a conductive material touches exposed terminals. When the battery is detached from the phone, use a cover made of nonconductive material for keeping and carrying the battery safely.

- Recommended temperature for using and storing batteries is approximately 20°C.
- The batteries' performance is limited in low temperatures, particularly below 0°C and the phone may not work temporarily regardless of the amount of remaining battery power.
- Exposing the phone to extreme temperatures will shorten battery life.
- The battery can be charged and discharged hundreds of times but it will eventually wear out. When the operating time (talk-time and stand-by time) is noticeably shorter than normal, it is time to buy a new battery.

#### CAUTION

RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE, DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS

See "Battery Disposal" on page 14.

### **Aerial Care**

 Do not touch the aerial unnecessarily, whilst using the mobile phone. If it is held, call quality may be hindered leading to shortened talk-time and stand-by time because the mobile phone may have to operate on a higher power level than is necessary.

- Use only the aerial supplied or one approved by Sharp for your mobile phone. Using unauthorised or modified aerials may damage the mobile phone. Moreover, since the mobile phone may violate the appropriate regulations, it may lose performance or exceed the limitation of SAR levels.
- To avoid impaired performance, do not damage the aerial of the mobile phone.
- Whilst talking directly to the microphone, please hold the mobile phone so that the aerial is upwards over your shoulder.
- To avoid interfering with blasting operations, please turn off the mobile phone in a blasting area or in a place where a "turn off two-way radio" sign is posted.

### **Camera Operation**

- Learn picture quality, file formats, etc. beforehand.
   The display supports up to 65,536 colours.
   The taken pictures can be saved in JPEG format (JPEG high-colour).
- Be careful not to move your hand whilst taking pictures.

- If the phone moves whilst taking a picture, the picture can be blurred. When taking a picture, hold the phone firmly to prevent it from moving, or use the delay timer.
- Clean the lens cover before taking a picture.
   Fingerprints, oils, etc. on the lens cover hinder clear focusing. Wipe them off with a soft cloth before taking a picture.

#### **Others**

- As with any electronic storage unit, data may be lost or corrupted under various circumstances.
- Before connecting the phone with a PC or a peripheral unit, read the operation manual for the other unit carefully.
- If the phone's battery has been removed for some time, or the phone has been reset, the unit's clock and calendar may be reinitialised. The date and time should be updated in this case.
- Use only the attached hands free. Some phone's functions may not work when unauthorised hands free are used.

- The phone uses the magnet to recognise that the phone is closed. Do not place magnetic cards near your phone or get the card caught in the phone as it may damage the recorded data.
- Do not flash the mobile light into eyes as this may damage eyesight or cause dizziness leading to accidents or injury.

#### ENVIRONMENT

- Keep your phone away from extreme heat. Do not leave it on the dashboard of a car or near a heater. Do not leave it in any place that is extremely damp or dusty.
- Since this product is not waterproof, do not use it or store it where fluids such as water can splash onto it. Raindrops, water spray, juice, coffee, steam, perspiration, etc. will also cause a malfunction.

# PRECAUTIONS CONCERNING VEHICLE USE

- It is the user's responsibility to verify if local laws permit the use of a mobile phone in a vehicle. Give full attention to driving. Pull off onto the side of a road and park the car before making or answering a call.
- If local laws permit, we recommend that you use your phone with the attached hands free.
- Use of your phone's function may interfere with the vehicle's electronic systems, such as the ABS antilock brakes or the air-bag. To ensure no such problem occurs, please check with your dealer or car manufacturer before connecting your phone.
- Only allow qualified service maintenance personnel to install the vehicle accessories.

The manufacturer disclaims any liability for damage which may result as a consequence of improper use or use contrary to the instructions contained herein.

#### SAR

Your Sharp mobile phone has been designed, manufactured and tested so as not to exceed the limits for exposure to electromagnetic fields recommended by the Council of the European Union. These limits are part of comprehensive guidelines developed by independent scientific organisations. The guidelines include a substantial safety margin designed to assure the safety of the phone user and others and to take into account variations in age and health, individual sensitivities and environmental conditions. European standards provide for the amount of radio frequency electromagnetic energy absorbed by the body when using a mobile phone to be measured by reference to the Specific Absorption Rate (SAR). The SAR limit for the general public is currently 2 watts per kilogram averaged over 10 grams of body tissue. Your Sharp mobile phone SAR value is 0.586 watts per kilogram. This has been tested to ensure that this limit is not exceeded even when the phone is operating at its highest certified power. In use however your Sharp mobile phone may operate at less than full power because it is designed to use only sufficient power to communicate with the network.
