LG KF700

Mobile ease made effortless

Always putting convenience and usability first

LG's efforts to observe consumer needs and develop products based on their insights have created phones that truly benefit our consumers. Thanks to such efforts, you can enjoy an enhanced LG mobile experience. Adopting new concepts and novel technologies focused explicitly on user convenience, the new LG KF700 includes considerable improvements with an interactive user interface that allows you to access desired features more quickly and easily.

The LG KF700 features a combination of full touch screen technology with an alpha-numeric keypad in a slim, sleek shape. A 12 button alpha-numeric keypad slides out for added convenience and the shortcut dial, an innovative technology unique to LG, provides instant access to a wide array of menu items with just a spin of its dial. No more digging through menus, just tap, slide and scroll your way to convenience with the LG KF700.

LG KF700

A truly touching experience

The LG KF700's unique threefold input system offers the optimal interface with your mobile contents

Put your finger on mobile multimedia enjoyment. The LG KF700 offers instant, easy access to content with a trio of input capabilities. Multiple input methods, each assigned to the tasks at which they are most efficient, provide optimal access to a myriad of features.

◎ **Shortcut Dial**
Shortcut dial is the thumb-through technology to get you where you want to go in a flash. With just a spin, you can scroll used menus.

◎ **Alpha-Numeric Keypad**
The LG KF700 is the first product to bring a full 3" touch screen together with a sliding alpha-numeric keypad. Use the keypad as an alternative way.

◎ **3" Full Touch Screen**
Its wide aspect ratio allows you to enjoy larger, more animated images, and access a variety of content with a simple touch, swipe or scroll.

Tangibly different, the LG KF700 has the sense to trust your touch.

The LG KF700's Shortcut Dial offers technology that ensures quick, easy access to menus

A shortcut to fun and function. Forget ploughing through endless menus to get to the function you've been looking for and turn to LG's innovation in intuitive control.

Intuitive and insightful

◎ **Direct Access to Menus**

Extremely easy to use, the shortcut dial is ready to roll with instant access to functions. Simply press the side key located just below the shortcut key and turn the wheel to toggle between an onscreen virtual dial, overlaid with icons.

◎ **User Customisation**

The shortcut dial is also customisable. Choose six features from a list of more than 20 menu* icons, and have instant access to frequently used functions, then change the menu at any time.

*Menus: create new message, message inbox, new email, mailbox, my videos, camera, video camera, album, music player, FM radio, my games & apps, calendar, tasks, date finder, alarms, memo, voice recorder, calculator, world time, converter, profiles, Bluetooth®, shortcut dial setting, Google search, Google mail, YouTube, games. (Some features are subject to change by service provider)

◎ **Intuitive Basic Controls**

Shortcut dial does more than access features in a flash: It can also be used to adjust the volume, scroll through messages, zoom in or out, and do just about anything else you could intuitively expect.

An intuitive interface, the LG KF700 turns to the task at hand.

LG KF700

A stroke of genius

The LG KF700's unique threefold input system offers the optimal interface with your mobile contents

Smart handling through simple movements. The LG KF700 is the only place to get hands-on experience with the magic of its touch screen technology.

◎ **Touch & Turn Over**

You can access a host of applications using a widget by a simple touch and tap. Display one of the five applications on the default screen and go to the setting mode whenever you want by a simple tap. Then, the widget turns over and you

can easily make new settings.

*Widget: Framed application that can be instantly reached on the idle screen. LG KF700 widget includes a clock that users can set the alarm at once, calendar, memo pad, world clock and carrier service (carrier service: subject to change)
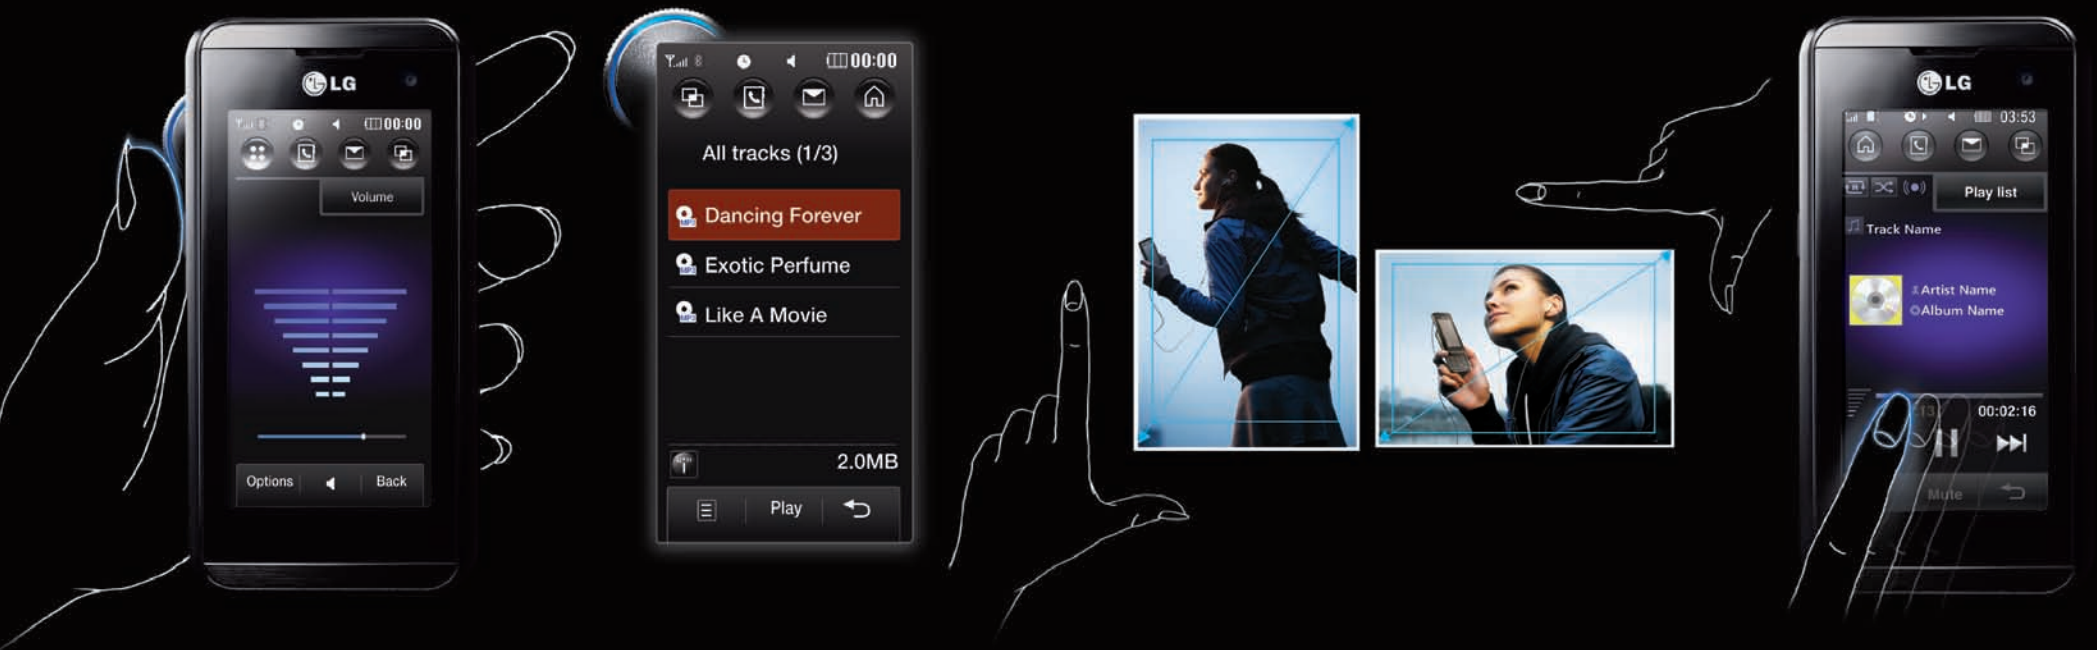

◎ **Touch & Type Insert**

It has never been so easy to send multimedia messages before. With the LG KF700, you can easily enter text using the alpha-numeric keypad, insert images with a single touch and preview the message before sending it.
